Proposed addition Proposed deletion

Authority

In compliance with the School Code, the Board shall require that District students submit to health and dental examinations in order to protect the school community from the spread of communicable disease and to ensure that the student's participation in health, safety and physical education courses meets his/her individual needs and that the learning potential of each student is not lessened by a remediable physical disability.[1][2][3][4]

Delegation of Responsibility

The Superintendent or designee shall instruct all staff members to continually observe students for conditions that indicate health problems or disability and to promptly report such conditions to the school nurse.[2]

The Superintendent or designee shall ensure that educational information and materials regarding eating disorder awareness and education are made available to students in grades six through twelve. Eating disorder awareness and educational materials must also be posted on the district's website.[26][27]

The Superintendent or designee shall ensure that notice is provided to all parents/guardians regarding the existence of and eligibility for the Children's Health Insurance Program (CHIP).[5]

Guidelines

Each student shall receive a comprehensive health examination conducted by the school physician upon original entry, in sixth grade, and in eleventh grade.[2][4][6]

Each student shall receive a comprehensive dental examination conducted by the school dentist upon original entry, in third grade, and in seventh grade.[3][4][6]

A private health and/or dental examination conducted at the parents'/guardians' request and expense shall be accepted in lieu of the school examination. The District shall accept reports of privately conducted physical and dental examinations completed within one (1) year prior to a student's entry into the grade where an exam is required.[6]

The school nurse or medical technician shall administer to each student vision tests, hearing tests, other tests deemed advisable, and height and weight measurements, at intervals established by the District. Height and weight measurements shall be used to calculate the student's weight-for-height ratio.[2][4][7]

The school nurse or other health care practitioner shall conduct measurements of height and weight for each student for the purpose of tracking growth patterns. Height and weight measurements will be conducted at intervals established by the district and in a manner that protects student confidentiality.Parents/Guardians have the right to request an exemption from height and weight measurements for their child, and the district must provide notificationof the exemption request procedure.[2][25]

The school nurse or medical technician will not require tests for tuberculosis for students, as otherwise required by section 1402(a) of the School Code, and will follow the District's modified tuberculosis testing procedures, which was approved by the PA Department of Health.

Parents/Guardians of students who are to receive physical and dental examinations or screenings shall be notified. The notice shall include the date and location of the examination or screening and notice that the parents/guardians may attend. The notice shall encourage the parent/guardian to have the examination or screening conducted by the student's private physician or dentist at the parent's/guardian's expense to promote continuity of care. Such statement may also include notification that the student may be exempted from such examination or screening if it is contrary to the parent's/guardian's religious beliefs.[8][9][10]

A student who presents a statement signed by the parent/guardian that a medical examination is contrary to his/her religious beliefs shall be examined only when the Secretary of Health determines that facts exist indicating that the student would present a

substantial menace to the health of others in contact with the student if the student is not examined.[11][12]

Where it appears to school health officials or teachers there are present conditions requiring health or dental care, the parent/guardian shall be notified of the apparent need for a special examination by the student's private physician or dentist. The parent/guardian shall report to the school whether a special examination occurred. If the parent/guardian fails to report whether the examination occurred within a reasonable time after being notified of the apparent need and the abnormal condition persists, appropriate school health personnel shall arrange a special medical examination for the student.[2][4][5]

In the event that the parent/guardian objects to or refuses to obtain a regular or special medical or dental examination or refuses to permit the child to be examined as arranged by the school nurse or school physician, the school nurse, in consultation with the school physician, shall determine whether the student appears to have unaddressed health conditions such that under the circumstances the refusal should be reported to the Pennsylvania Department of Health or other appropriate authorities.

Where school health officials or staff have reasonable cause to suspect that a student may be the victim of child abuse or neglect, the school employee shall make a report of suspected child abuse in accordance with law and Board policy.[13] **[14]**

Health Records

The District shall maintain for each student a comprehensive health record which includes a record of immunizations and the results of tests, measurements, regularly scheduled examinations and special examinations.[2]

All health records shall be confidential and shall be disclosed only when necessary for the health of the student or when requested by the parent/guardian, in accordance with law and Board policy.[15] **[16]** **[17]**

The District may disclose information from health records to appropriate parties in connection with an emergency when necessary to protect the health or safety of the student or other individuals, in accordance with applicable law and Board policy.[15] **[16]** **[17]** [18][19] **[20]** **[21]**

Designated District staff shall request from the transferring school the health records of students transferring into District schools. Staff shall respond to such requests for the health records of students transferring from District schools to other schools.[15]

The District shall destroy student health records only after the student has not been enrolled in District schools for at least two (2) years.[15] **[22]**
