Mathematics Trimester Expectations

enVision Mathematics — Kindergarten

North Plainfield School District • SY 2026–2027

4	3	2	1	NA
Exceeding Expectations	**Meeting Expectations**	**Partially Meeting Expectations**	**Not Meeting Expectations**	**Not Assessed**
Mastered grade level expectations and completing above grade level work independently.	Performs grade level expectations independently.	Requires frequent support to complete grade level expectations.	Does not meet grade level expectations with support.	This component of the standards is not assessed during the specified trimester.

How Standards Are Organized

There are six major themes that cover all New Jersey Student Learning Standards (2023) for kindergarten. Below you will find the six themes that students will be scored on throughout the year, along with the enVision Mathematics topics and the trimester(s) in which each is taught and assessed. You can find more information regarding NJSLS at: 2023 NJSLS-Mathematics (K–12).

Trimester dates for SY 2026–27: Trimester 1: Sept. 3 – Dec. 4, 2026. Trimester 2: Dec. 7, 2026 – Mar. 12, 2027. Trimester 3: Mar. 15 – June 11, 2027.

Domain	Cluster Headings	Trimester	enVisionTopics
Counting andCardinality *Standards: K.CC*	• Know number names and the count sequence. • Count to tell the number of objects. • Compare numbers.	**Trimester 1** **Trimester 3**	**Topics 1–2, 10, 12**
Operations andAlgebraic Thinking *Standards: K.OA*	• Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.	**Trimester 1** **Trimester 2**	**Topics 4–6**
Data Literacy *Standards: K.DL*	• Classify objects and count the number of objects in each category.	**Trimester 1**	**Topic 3**
Geometry *Standards: K.G*	• Identify and describe shapes. • Analyze, compare, create, and compose shapes.	**Trimester 2** **Trimester 3**	**Topics 7–8**
Measurement *Standards: K.M*	• Describe and compare measurable attributes. • Work with money.	**Trimester 3**	**Topics 9, 11**
Number and Operations in Base Ten *Standards: K.NBT*	• Work with numbers 11–19 to gain foundations for place value.	**Trimester 3**	**Topic 11**

At-a-Glance: Standards Coverage by Trimester

The chart below shows which trimester(s) each domain is taught and assessed. NA indicates a trimester where a domain is not addressed as a graded component (skills may still be reinforced through spiral review or embedded practice).

Domain	T1 Sept. 3 – Dec. 4	T2 Dec. 7 – Mar. 12	T3 Mar. 15 – June 11
Counting and Cardinality	✓	NA	✓
Operations and Algebraic Thinking	✓	✓	NA
Data Literacy	✓	NA	NA
Geometry	NA	✓	✓
Measurement	NA	NA	✓
Number and Operations in Base Ten	NA	NA	✓

Counting & Cardinality note: This domain opens the year (Topics 1–2, numbers 0–10) and returns in Trimester 3 as counting extends to 20 and then 100 (Topics 10, 12). It is not a trimester 2 focus, when the program shifts to operations, geometry, and data.
Operations & Algebraic Thinking note: Topic 5 (Understand Subtraction) begins in the final days of Trimester 1 and continues into Trimester 2; the domain wraps up in Trimester 2 with Topic 6 (More Add./Subtract.).
Geometry note: Topic 7 is taught entirely in Trimester 2; Topic 8 finishes its instruction in Trimester 2, but its review and test fall in Trimester 3.
Measurement & Base Ten note: Coin identification (K.M.B) is delivered within Topic 11 alongside compose/decompose work for numbers 11–19 (K.NBT.A), even though the standards-correlation workbook maps K.M.B.3 to a separate NJ digital lesson rather than a numbered topic.
