Budget Hearing

and

Annual Meeting

6:00 p.m., Monday, August 10, 2026
Wisconsin Dells District Office

August 10, 2026

Good Evening,

Welcome to the School District of Wisconsin Dells Budget Hearing and Annual Meeting. Your interest, presence, input and support for our District are appreciated.

Wisconsin Statutes 65.90(4) requires common school districts to hold a Budget Hearing in conjunction with the Annual Meeting. The purpose of the Budget Hearing is to provide an overview of the proposed budget and allow eligible electors an opportunity to ask questions.

Common school districts are directed by Wisconsin Statute 120.08 to conduct an Annual Meeting in a school building on the 4th Monday in August at 8:00 p.m., unless otherwise directed by the electors of the district, but not before May 15th or after October 30th. The powers of the Annual Meeting are limited to those specified in Wisconsin Statute 120.10.

Eligible electors (voters) are residents of the School District of Wisconsin Dells who are 18 years of age or older and who have lived in the District for a minimum of 28 consecutive days, immediately prior to the Annual Meeting. If any person's qualifications as an elector are challenged, the meeting chairperson shall administer the required oath of affirmation. Any challenged person who refuses to take such an oath of affirmation may not vote.

Robert's Rules of Order will be observed during the Budget Hearing and Annual Meeting to facilitate orderly conduct of business. We ask that electors of the District wait to be recognized by the chair before speaking, and give their name when they wish to address those in attendance. The chair reserves the right to limit debates and limit speakers to given time limits as deemed appropriate. The chair will call for voice votes on motions, and may at the chair's discretion, call for a show of hands. Secret ballots may be requested from the floor.

Thank you for attending.

Sincerely,

Terrance Slack

Terrance Slack
District Administrator

POST-EMPLOYMENT BENEFIT TRUST (73) FUND REPORT

The District established an irrevocable trust in Fund 73, where funds could be deposited, invested and disbursed to cover its current and future contractual obligations to provide post-employment benefits to retired employees. Funds deposited into the trust are designated to cover the "current" or "future" cost of post-employment benefits. As required by Wisconsin Statutes, the Board must invest funds deposited into the trust to cover the future cost of post-employment benefits, on a fee for services basis, with a licensed firm, MidAmerica Administrative & Retirement Solutions, Inc. The District's investment advisor is registered under 15 USC 80b-3, is knowledgeable of school finance regulations, and adheres to the Board's overriding goal of protecting the trust principal.

Wisconsin Statutes require the Board to report the status of the trust to District electors at the Annual Meeting, and include the following data:

Trust Beginning Balance: 07-01-2025	**$3,929,533.00**
Return on Investment: 07-01-2025 to 06-30-2026	**$74,568.91**
Total Contributions: 07-01-2025 to 06-30-2026	**$553,982.09**
Total Disbursements: 07-01-2025 to 06-30-2026	**$553,982.09**
Trust Ending Balance: 06-30-2026	**$3,996,700.68**
Investment Manager:	**MidAmerica**

2026-2027 BUDGET HEARING MESSAGE

Each January, the District begins a budget building process that continues through the summer and culminates with the Board of Education approving the tax levy in late October. District employees present budget requests to their respective supervisor or administrator. Requests are prioritized, some requests are eliminated and eventually a budget is established that complies with the statutory revenue limit and meets the educational needs of our students. The Board approved a preliminary budget in July 2026, and revisions will continue until the District receives final revenues from the State in late October.

Wisconsin Act 16 established "Revenue Limits" for Wisconsin school districts, beginning with the 1993-94 school year. This legislation established a format for determining the maximum additional revenue a district may receive in state equalization aid, business computer aid and property taxes, with a few permissible exceptions, for Funds 10, 38, 41 and 80.

The 2001-03 State Budget removed Fund 80 from the revenue limit calculation. The proposed budget and tax levy under consideration by the electorate this evening was developed using a revenue limit calculation that was prepared in June. A district's revenue limit is influenced by three primary factors:

1. A three-year average of Third Friday in September Enrollments, plus 40 percent of the FTE summer school membership.
2. The statutory allowable increase in per pupil revenue.
3. The District's prior-year controlled revenue.

Revenue Limits = Historical Perspective:

Since 1993, "revenue limit" statutes have restricted a school board's ability to establish a tax levy that met the local district's program needs. Historically, statutory "revenue limit increases" did not keep pace with wage, benefit and other inflation-driven operational cost increases. In the early years of revenue limits, districts made cuts that did not impinge the educational program, but that has changed over time. For many years now, newspapers have regularly documented school budget cuts, layoffs and revenue limit referendums necessitated by state-imposed revenue limits. The level of cuts needed to create balanced expenditure and revenue budgets has increased annually in most districts and is further exacerbated in districts with declining enrollment.

Numerous factors impact the revenue limit and many are still projections at this point. The calculation can be finalized after the Third Friday Count that occurs in September and general equalization aid is certified in October. The District projects a decrease of 36 FTE in its three-year membership average at this time. In addition, the State approved a $325 increase in the Per Member Change for 2026-27. At this time, following the July 1 Aid Estimate, the District expects a $414,315 decrease in its General Equalization Aid, and a decrease of $637,705 in its allowable revenue limit without passing an operational referendum and an increase of $1,163,295 with the passage of the operational referendum.

2026-2027 REVENUE LIMIT CALCULATION - SIMPLIFIED

The following chart reflects the District's projected 2026-2027 Revenue Limit calculation. The official 2026 Membership Count happens on the Third Friday in September and the property value is an estimate until the Department of Revenue releases the final values in October of each year. There could also be additional exemptions applied in the final worksheet. The District's final Revenue Limit will be calculated in mid-October, once final General Aid amounts are received from the Wisconsin Department of Public Instruction.

2026-2027 GENERAL FUND (10) REVENUE BUDGET

The proposed **2026-2027 General Fund Revenue Budget** is **$28,576,834**. This represents a **$250,525 or 0.9 percent increase** from the previous year. The net change is due to declining enrollment, decreases in State Sources such as AGR(SAGE) and General State Aid while increasing the operational referendum from $1,200,000 to $1,800,000. The chart below compares 2025-2026 revenues to anticipated 2026-2027 revenues:

Operating Transfers-In: This revenue source was formerly used to transfer categorical aid received for 66.30 Special Education Programs operated in Fund 94 to the General Fund. Under current DPI procedures, all special education transactions are now handled within Fund 27.

Local Sources: This revenue source includes property taxes, chargeback of property taxes, mobile home taxes, payments for services, building or equipment rental fees, school activity income, student fees and interest on investments. Local sources are budgeted to provide 75.4 percent of the 2026-2027 general fund revenue, which is an increase of $1,132,246 or 5.5 percent. Factors for this increase include the allowable per member increase, declining enrollment exemption, and the operational levy.

Inter-District Payments: This revenue source consists primarily of the open enrollment aid transfer. It will provide 6.8 percent of the total 2026-2027 general fund revenue. The open enrollment revenue is based on applications received from students who live outside of the District to attend SDWD and will not be finalized until the Third Friday in September membership count. The increase of open enrollment students to our District has helped offset the loss of revenue due to declining enrollment of our resident student population. Also included in this category is tuition revenue received for non-residents attending in the district through tuition agreements.

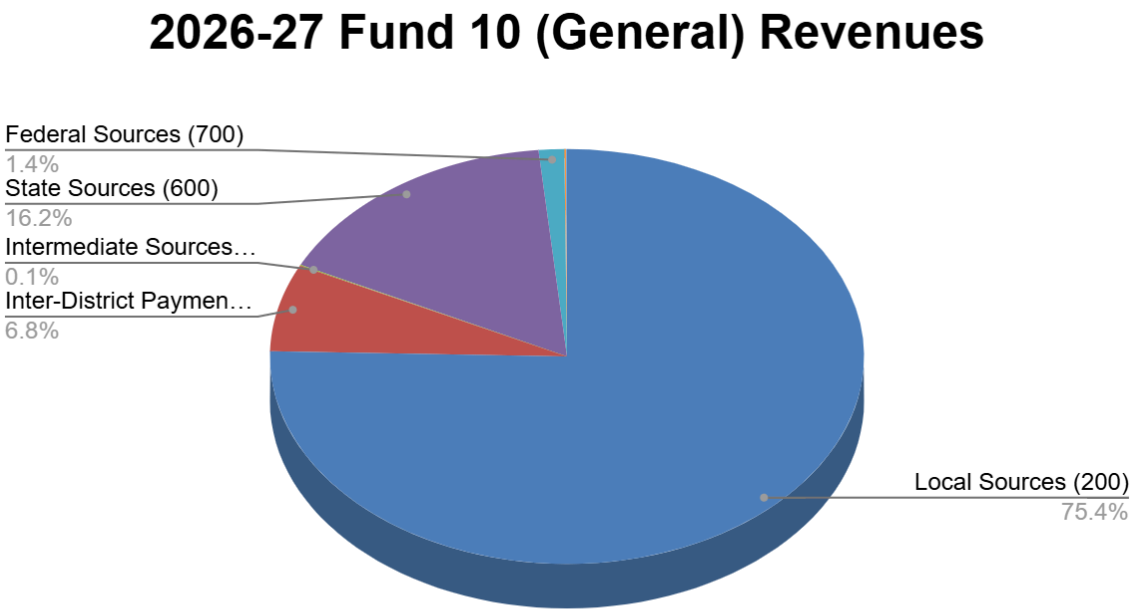

Intermediate Sources: This revenue source includes the transit of grant monies from intermediate sources, such as CESA 5 grant reimbursements. It will provide $21,558 or 0.1 percent of the total 2026-2027 general fund revenue. The decrease from the prior year is primarily due to a decline in the Carl Perkins grant budget.

State Sources: This revenue source includes state equalization aid, SAGE/AGR aid, transportation aid, library aid, bilingual aid and per pupil adjustment aid. State sources will provide 16.2 percent of the total 2026-2027 general fund revenue, with a decrease of $635,000 or 8.7 percent. General State Equalization Aid is predicted to decline by $414,315, increasing the tax burden on local residents. In addition we are anticipating reduction in SAGE/AGR aid by an estimated $173,691

Federal Sources: This budget category includes federal grant sources such as IDEA Coordinated Early Intervention Services in Fund 27, Title IA, Title IIA, and Title IVA in Fund 10. Federal sources provide 1.4 percent of the total 2026-2027 general budget and $78,751 lower than the previous year. Title I, II, and IV allocations have been reduced by over $92,000 collectively.

Other Financing Sources: This revenue source includes capital leases, revenue generated from the sale of school property such as retired buses, or insurance proceeds for property losses. This revenue category is very small, budgeted to be $20,000 and provide 0.1 percent of the total general fund revenue in 2026-2027.

Other Revenues: This revenue source includes refunds from prior year disbursements, liquidated damages, and insurance reimbursements. This revenue category will provide 0.1 percent of the total 2026-2027 general budget which is a decrease of $7,002. During the 2024-25 fiscal year the District received an infrequent rebate from USAC for $225,962. The miscellaneous revenues received are typically a very small portion of the budget and can vary from year to year, and this proposed budget reflects that.

2026-2027 GENERAL FUND (10) EXPENDITURE BUDGET

The proposed **2026-2027 General Fund Expenditure Budget** for the School District of Wisconsin Dells is **$27,340,197**. This represents an **$270,976 or 1.0%** decrease in General Fund expenditures.

Current and prior year revenues and expenditures are presented in the charts below.

General (10) Fund Expenditures	*2024-2025*	*Unaudited 2025-2026*	*Proposed 2026-2027*	*Percent of Budget*	*Dollar Change*	*Percent Change*

Salaries: This budget category includes wages and salaries paid to all non-special education personnel, including board members, administrators, teachers and support staff. It will consume 43.3 percent of the total 2026-2027 general budget and is budgeted $86,157 or 0.7 percent lower than the salary expenditures in 2025-2026. The proposed budget includes increases for all regular employees and is compliant with Wis. Stat. 111.70 that limits, without a referendum, increases in base wages for municipal employees, which includes school district employees. This budget represents a net decrease from wage increases and staff reductions.

Fringe Benefits: This budget category includes employer social security, employer contributions to the Wisconsin Retirement System, life insurance, health insurance, dental insurance, disability insurance, and retirement benefits for non-special education personnel. Fringe benefits for these non-special education employees will consume 19.6 percent of the total 2026-2027 budget. It is $234,186 or 4.2 percent lower than the actual 2025-2026 fringe benefit expenditures. While health insurance premiums increased by 8.9%, we are experiencing fewer employees participating in health benefits.

The District's health insurance plan renewal with Dean Health resulted in an increase of premiums for 2026-27 of 8.9%. Deductible amounts are remaining at $3000/$6000 and HSA contributions are also remaining at $1650/$3300. Premiums will be $888.93 per month for a single HMO plan and $2311.22 per month for a family HMO plan. There was a slight (5.0%) increase in the amount of the monthly dental insurance premiums for 2026-2027 and the Wisconsin Retirement rate increased from 7.20 percent for 2026 to 7.25% for 2027. Total

expenses for Social security, life insurance, disability insurance, and Employer contributions to the Wisconsin Retirement System are driven by employee wages.

Purchased Services: This budget category includes repairs, service agreements, telephone, fuel for heat and transportation, electricity, water and sewer, postage, printing, maintenance and construction projects and registration fees. Purchased services will consume 17.0 percent of the total 2026-2027 budget. This expenditure category is $31,892 or 0.7 percent increase from the 2025-2026 expenditures.

Non-Capital Objects: This budget category includes tangible items, such as library books and textbooks, workbooks, audio-visual teaching aids, computer software, paper and instructional supplies. Non-capital objects will consume 3.9 percent of the total 2026-2027 budget which is $1,528 or 0.1 percent lower than 2025-2026 expenditures.

Capital Objects: This budget category includes all equipment that costs more than $500 and will consume 1.4% percent of the total 2026-2027 budget. It is $20,184 or 4.9% percent lower than the 2025-2026 capital object expenditures, due to scheduled or anticipated projects going on this fiscal year.

Debt Retirement: This budget category includes principal and interest on operational debt and equipment leases, not referendum debt. It will consume 0.1 percent of the total 2026-2027 budget. The proposed budget was developed with the assumption that no short-term borrowing would be necessary, no leases on Chromebooks, and the only expense is the copy machine lease agreement with Rhyme Business Products.

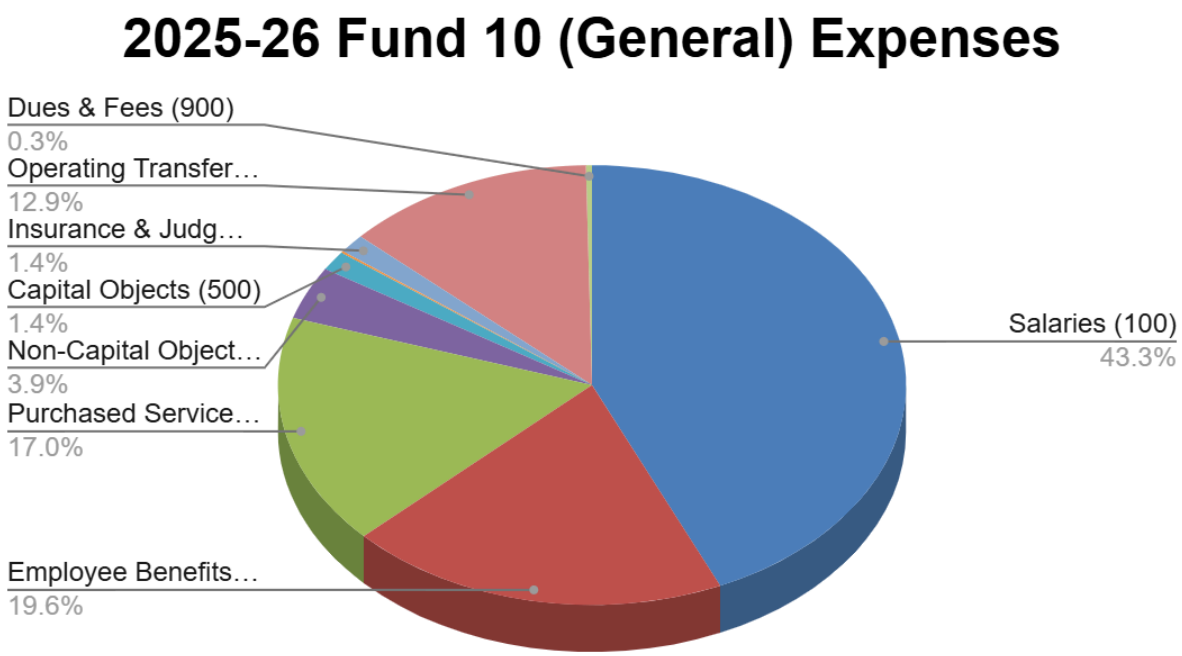

Insurance and Judgments: This budget category includes liability, property, and worker compensation insurance premiums and unemployment compensation. It will consume 1.4 percent of the total budget in 2026-2027 and is $12,111 or 3.10 percent lower than the 2025-2026 insurance and judgment expenditures. The District's Worker's Compensation Rate reduction offset the increase in property and liability insurance amounts as well as increasing the cyber security liability limits from $1,000,000 to $2,000,000 along with numerous cyber extortion liabilities from $25,000 to $2,000,000.

Operating Transfers-Out: This budget category is used to transfer monies from Fund-10 to Fund-27 to cover special education salaries, benefits, open enrollment transfers, out-of-district tuition payments, transportation and the non-salary and benefit expenditures that support special education programs. It is used to transfer monies from Fund-10 to Fund-50 to cover any operational deficits or negative student accounts in the Food Service Program, if one occurs (though this year that will not be necessary). And, the District has a Fund-46 Long Term Capital Improvement Fund, and this is the category used to record the transactions to transfer funds from the operating budget to that fund.

This area of the budget will consume 12.9 percent of the total in 2026-2027 and is $94,392 or 2.8 percent more than the 2025-2026 actual expenditures in this area. First, the District does not plan to transfer any money to Fund 50 to cover the Food Service program. Next, the Fund 27 transfer from Fund 10 to cover special education expenses is expected to decrease by $4,348. Current State Special Education Reimbursement of prior years expenses is 38.14% and is

expected to be similar next year. Lastly we are increasing the transfer from Fund 10 to Fund 46 by $98,740 in 2026-2027.

Dues and Fees: This budget category includes dues, entry fees, registration fees, and membership fees and will consume 0.3 percent of the total 2026-2027 budget. It is a $15,041 decrease compared to 2025-2026.

2026-2027 SPECIAL EDUCATION (27) FUND BUDGETS

The proposed **2026-2027 Special Education (Fund 27) Revenue and Expenditure Budgets** for the School District of Wisconsin Dells are **$5,504,703**. This represents a **$149,653 or 2.8** percent increase from the 2025-2026 Special Education Budget. Revenues and expenditures are required to be equal in this fund. Any deficit in operations is offset by an operating transfer from the General Fund (Fund 10). The District is anticipating lower expenses from Cesa 5 which in turn reduces the reimbursement revenue from intermediate sources. The District is however expecting an increase in state special education aid based on increased expenses from the prior fiscal year. Salaries and Benefits are expected to increase by 4.9% and 13.2% respectfully. In addition the budget reflects a reduction in Capital Objects with the elimination of a special education bus purchase.

Current and prior year revenues and expenditures are presented in the charts below.

2026-2027 CAPITAL PROJECTS (40) FUND BUDGETS

Fund 40 includes Fund 46 (Long Term Capital Improvements) and Fund 49 (Other Capital Projects). This year revenues will be down with referendum dollars already encumbered while expenses will increase with the completion of the Safety And Security Project this summer and the Middle School Chiller replacement this fall. The proposed total **2025-2026 Capital Projects Fund (Fund 46 & 49) Revenue Budget is $540,000**. This represents a $98,740 or 2.6 percent decrease from the past year. This includes a transfer to be placed in Fund 46 for Long Term Capital Projects in the amount of $500,000. The proposed 2026-2027 Capital Projects Fund (Fund 40) Expenditure Budget is $612,081. This represents an **$3,139,701 or 83.7** percent decrease. The majority of the decrease is due to the near completion of the Safety and Security Project at Wisconsin Dells Elementary and Middle School.

Current and prior year revenues and expenditures are presented in the charts below.

2026-2027 FOOD SERVICE (50) FUND BUDGETS

The proposed **2026-2027 Food Service Fund (Fund 50) Revenue Budget is $1,450,609**. This represents a **$42,149 or 2.8%** percent decrease. The proposed **2026-27 Food Service Fund (Fund 50) Expenditure Budget is less than revenues at $1,441,968.** This represents a **$10,957 or 0.8%** percent decrease from 2025-2026. All students will continue to receive free breakfast this year through a generous donation from the Wisconsin Dells Education Foundation (WDEF). Based on the anticipated revenues and expenses, the District's fund balance is expected to increase by $8,641 to an estimated amount of $281,572.95 on June 30, 2027.

STATE AID AND PROPERTY TAXES

The funding formula in Wisconsin was created to give the greatest amount of state aid to those districts with the lowest equalized property value per pupil and the least state aid to those districts with the highest equalized property value per pupil. Wisconsin Dells has a high equalized property value per pupil and receives very little in state equalization aid.

This following chart depicts General Equalization Aid, Computer/Personal Property Aid, and Declining Enrollment Aid, received by the School District of Wisconsin Dells since 2021-22 and the aid estimate for 2026-2027. The amount of state aid is deducted from the allowable revenue limit. A decrease in State Aid is an increased tax burden on local tax payers.

MAJOR FUND DEFINITIONS

A fund is an independent account entity that has a self-balancing set of asset accounts, liability accounts and equity accounts. Funds are established to segregate financial accounting of specific activities, in accordance with laws, regulations, restrictions, or limitations.

General (10) Fund: The General Fund is used to account for District financial activities for current operations, except those that must be accounted for in separate funds.

Special Project (20) Fund: This fund is used to account for activities that are funded, in whole or in part, by federal or state programs that are designed for specific purposes and which require accounting in a segregated fund.

Debt Service (30) Fund: Wisconsin Statute 67.11 requires districts to use this fund to account for the debt service tax levy, related revenues and all expenditures for long-term debt retirement. Districts must maintain a separate checking and/or investment account for this fund.

Capital Projects (40) Fund: This fund is used to account for financial resources involved in the acquisition of capital objects, construction of major capital facilities or major maintenance projects. Capital projects financed through long-term borrowing or a sinking fund (sec. 120.10 {10}) must be accounted for in this fund. Capital projects funded through other sources of revenue such as gifts, grants, sale of capital objects, etc., may be accounted for in this fund, depending on the circumstances.

Food Service (50) Fund: Federal regulations require that the Food Service Fund be accounted for separately. All revenues and expenditures related to Food Service are recorded in this fund. The Food Service Fund may not transfer money to any other fund. Any fund deficit at the end of the year must be eliminated through an operating transfer from the General Fund. Any fund balance must be retained for future use for Food Services.

Trust (70) Fund: This fund includes Fund 72 – Private Purpose Trust Fund, which comprises both expendable and non-expendable scholarship monies. It also includes the District's Fund 73 – Employee Benefit Trust Fund, from which all resources, including principal and interest, may only be expended to pay for employee post-employment benefits.

Community Service (80) Fund: Wisconsin Statutes 120.13 and 120.61 allow districts to permit use of the District's property for civic purposes and provide community services, such as adult education, community recreation and day care. This fund must be used to account for such activities.

Package and Cooperative Program (90) Fund: This fund is used to provide accounting for multi-district projects in which it is necessary to maintain a separate record of revenues and expenditures so that each participating district's share will be determined accurately. Such projects must be covered by a written agreement approved by the school board of each participating district.

MAJOR FUNCTION DEFINITIONS

Function is the purpose for which an object is used or for which a person acts. Function includes the activities or actions that are performed to accomplish specific objectives.

110 000 Undifferentiated Curriculum: An instructional situation in which one teacher is responsible for providing instruction in two or more curriculum areas to the same group of pupils, such as a K-5 teacher.

120 000 Regular Curriculum: An instructional situation in which a teacher is responsible to instruct a group of pupils in only one curricular area, i.e., a departmentalized approach (grades 6-12).

130 000 Vocational Curriculum: A vocational curriculum consists of occupationally related subject matter and related experiences designed to develop the knowledge, skills, attitudes and appreciations that relate to the world of work.

140 000 Physical Curriculum: The body of related subject matter and activities in health and daily living such as health education and physical education.

150 000 Special Curriculum: A special curriculum consists of courses and other provisions which are different from or in addition to those provided in the usual school program and are provided for exceptional pupils by specially qualified personnel. A subdivision of this sub-function is used to record transactions associated with special educational provisions made for the special type of pupil indicated. Special curriculum provides for special needs children who are gifted and talented and children who are limited as a result of physical, social, cultural, mental or emotional conditions.

160 000 Co-Curricular Activities: Co-curricular activities are comprised of the group of school-sponsored activities designed to provide opportunities for pupils to participate in such experiences as athletic events, forensics, etc.

170 000 Other Special Needs: Activities to meet the needs of students who are culturally/socially disadvantaged, gifted & talented, non-special education homebound and school age parent.

210 000 Pupil Services: Activities designed to assess and improve the well-being of students and to supplement the teaching process such as guidance, nursing and psychologist services.

220 000 Instructional Staff Services: Activities associated with assisting the instructional staff in providing learning experiences for students such as library services, instructional staff training and curriculum development. Activities involving supervision and coordination of the special education and athletic/activities programs are also recorded in this area.

230 000 General Administration: Activities concerned with establishing and administering policy in connection with operating the school district such as the School Board and Office of the Superintendent.

240 000 School Building Administration: Activities of Principals concerned with overall responsibility for a school building.

MAJOR FUNCTION DEFINITIONS

250 000 Business Administration: Activities concerned with paying, transporting, exchanging and maintaining goods and services for the school district, including fiscal and internal services necessary for operating the school. Transactions made for auxiliary services, such as maintenance and operations, food service and pupil transportation, are also recorded within this budget area.

260 000 Central Services: This area includes activities that support instructional and support services and are district-wide in nature.

270 000 Insurance and Judgments: This function includes liability, property, fidelity and other insurance premiums and judgments.

280 000 Debt Services: This area includes payment of principal, interest and processing costs for short-term and long-term loans and capital leases.

290 000 Other Support Services: Included in this function are CESA general administration charges and benefits paid to or on behalf of former employees of the District as a part of their early retirement program.

Payments made to other school districts and CESAs for general tuition and instructional services, for both open enrollment and non-open enrollment students, are also non-program transactions.

GENERAL FUND BALANCE HISTORY

The General Fund Balance represents the General Fund's total assets minus liabilities. Please note that this is not an exact cash balance at year end, as cash fluctuates based on the timing of revenues and expenditures.

Year End	Fund Balance
June 2022	$10,654,986
June 2023	$11,860,257
June 2024	$11,779,941
June 2025 (unaudited)	$11,484,640
June 2026 (estimated)	$12,050,792

REFERENDUM APPROVED INDEBTEDNESS – FUND 39

This chart depicts outstanding electorate-approved debt incurred by the District for facilities. The dollar amounts represent annual interest and principal payments the District will pay toward each project-obligation in the identified school year. The District makes two payments per year toward each obligation, in March and September. The Fund 39 tax levy amount in this budget will cover the interest and principal payments that will be made in March 2026 and September 2026.

DISTRICT ENROLLMENT HISTORY

The District is required to take official enrollment counts on the 3rd Friday in September and the 2nd Friday in January. Enrollment counts are converted to a full-time equivalency (FTE) count.

The 3rd Friday in September count is used in the calculation of a district's revenue limit and both counts are part of the calculation used in determining the amount of state equalization aid a district will receive in the following school year.

School Year	Third Friday in Sept. FTE	Second Friday in January FTE
2020-21	1,779	1,753
2021-22	1,718	1,708
2022-23	1,805	1,775
2023-24	1,801	1,803
2024-25	1,793	1760

PUBLIC SCHOOL OPEN ENROLLMENT & TUITION WAIVERS

Since the beginning of the 1998-99 school year, students have been able to attend any school district in the state, where space is available, under Wisconsin's public school open enrollment program. In order for students to participate, parents must submit application forms to the non-resident school district between the first Monday in February and the last weekday in April. An alternative application procedure also allows pupils to apply for open enrollment at any other time during the school year, if certain criteria are met.

Wisconsin law also permits a student who moves to another district after the open enrollment application window to continue to attend school in their previous district under what is called a tuition waiver. In some cases, students are able to attend the remainder of a school year and an additional year before having to apply under open enrollment to remain in the non-resident district.

The Department of Public Instruction (DPI) establishes an open enrollment basic transfer amount and transfers that amount of money from the student's district of residence to the district where the student is attending by adjusting the districts' state aid payments. A school district's equalization aid is increased or reduced by the net number of transfers times the basic transfer amount. Open enrollment funding since 2024-25 is as follows.

2024-25: $8,962
2024-25: $13,814 pupils with disabilities

2025-26: $10,102
2025-26: $14,454 pupils with disabilities

2026-27: $11,030 (estimated)
2026-27: $14,882 (estimated) pupils with disabilities

The following table shows the impact of the open enrollment program on the District's budget and a preliminary estimate for the upcoming school year.

SCHOOL DISTRICT OF WISCONSIN DELLS

FIVE-YEAR STRATEGIC OBJECTIVES

2024-2029

OUR MISSION

Connect. Inspire. Achieve Everyone, Every Day

OUR VISION

Academic and Individual Excellence for a Stronger Community.

DISTRICT'S STRATEGIC OBJECTIVES:

STUDENT GROWTH AND ACHIEVEMENT	PROFESSIONAL GROWTH AND LEADERSHIP	DISTRICT AND COMMUNITY ENGAGEMENT	FACILITIES, FINANCE, AND OPERATIONS
Leverage our Professional Learning Community (PLC) to deepen the implementation and consistency of our guaranteed and viable curriculum. Connect with all students to understand their passions so we can engage and inspire them to achieve.	Deepen our commitments to teacher leadership and mentoring. Provide training for staff to become better facilitators/leaders.	Conduct an annual review of the current communication process across the district. Create expectations of use and train staff to effectively keep families informed.	Present an annual comprehensive long-term capital improvement strategy that includes an annual review of Fund-46 to ensure clean, healthy, and safe environments. This plan should support staff in delivering student-centered services while upholding financial accountability.

OUR BELIEFS

- We set high academic standards, deliver a guaranteed and viable curriculum in every classroom, and believe all students will be successful.
- We value adult learning as it empowers educators to engage in effective and equitable instruction practices that enhance student learning.
- We implement evidence-based practices, pursue innovative ideas, and embrace the application of current technologies.
- We collaborate with families and partner with local organizations to develop a stronger community for the benefit of all students
- We provide physical environments to facilitate high levels of learning and serve the needs of all students.
