Note 1: In the change columns, green indicates an increase, red indicates a decrease, yellow indicates no change, and white /gray indicates not applicable (NA).

Note 2: District and school level total enrollment contains unique students per school where a student is counted multiple times if enrolled at multiple schools.

Note 3: The mobility rate formula used is given below and was obtained from the High Schools That Work initiative.

$$\text{Mobility Rate} = \frac{100 * (Entries\ After\ First\ Day + Reentries + Withdrawals)}{(First\ Day\ Enrollment + Entries\ After\ First\ Day)}$$

Note 5: Hall alternative program students are separated out rather than included in with the home schools because these students are highly transient, which would affect the mobility rates for the home schools.
