

ELEMENTARY NEWSLETTER

NOVEMBER

Principals' Blurb

This morth, we are starting our **Growth Mindset & Goal-Setting** unit to build strong habits for learning and growing together. Here is a quick look at what we will be practicing:

- **Paying Attention to Learn & Stay Safe:** Discover how watching carefully, listening, and staying quiet help us pay attention—so we can learn new things and keep our classroom safe.
- **Making Mistakes Is Part of Learning:** Learn to use kind, encouraging words for ourselves and others when things do not go right the first time.
- **Practice Makes Better:** Build a growth mindset by remembering that keeping at it and practicing helps us master new skills.

Get ready to try your best, encourage your classmates, and grow your brain!
