How To Read Your Child's Progress & Report Card

Kindergarten – 3rd Grade Standards-Based Report Cards

1 BEGINNING LEARNER

The student is still developing this skill and needs more time, practice, and support to meet the standard.

2 DEVELOPING LEARNER

Student is progressing, and more time and practice will help them meet the standard.

What is Standards-Based Grading?

Our K–3 report cards are standards-based. This means they show how well students are learning the skills and knowledge set by Georgia's academic standards. **Instead of letter grades (A, B, C, D, F),** students receive number scores that show their progress toward meeting the standard, not pass or failure.

BLANK
The standard has not been taught.

3 PROFICIENT LEARNER

Student is meeting the standard; this is the target for every student by the end of the year.

4 DISTINGUISHED LEARNER

Student is exceeding the standard; they independently use their learning in new or challenging situations.

Tips To HELP AT HOME

Read with your child daily and discuss what you read.

Have frequent conversations with your child: Start with, "What did you learn today?"

Practice real-world math (cooking, measuring, telling time).

Reach out to your child's teacher to discuss your child's progress.
