October 31, 2026

Greetings!

On behalf of the Naugatuck High School Marching Band, I welcome you to our home competition and USBands State Championships. What an honor it is to share our turf field with other distinguished bands from around the state. Tonight is a demonstration and celebration of the dedication and hard work put forth by the students, volunteers, and staff of these inspiring music programs. This year, the Naugatuck High School Marching Band proudly presents our Fall 2026 show, *"Something Human."* I hope you enjoy it as much as we do!

I would like to thank the many volunteers, sponsors, and community members that help to make this event possible. I would also like to recognize my staff, the Greyhound Performing Arts Association, and our amazing students for all their hard work this season. We thrive because of your continued dedication and support.

I wish the best of luck to all competing bands this evening. Thank you for attending our competition, and I hope you all have a wonderful evening. "Here we grow!"

Sincerely,

Learn. Thrive. Belong.

Welcome to Naugatuck High School's annual Thunder in the Valley Marching Band Show!

As Superintendent of Schools and a proud Naugatuck resident, I am delighted to welcome our visiting bands, families, and supporters to our community this October 31. Thank you for joining us for an evening of music, school spirit, and outstanding student performances.

To our Naugatuck student musicians, I am so proud of you. Under the direction of Mr. Manny Arboleda and his dedicated staff and student leaders, you have spent countless hours preparing, practicing, and encouraging one another. Tonight, we celebrate both your performance and the commitment, creativity, and teamwork that brought you here.

Our district's core values, Learn. Thrive. Belong., come to life through experiences like marching band. Students learn through practice and perseverance, thrive as they build confidence and take on new challenges, and belong to a team where every member's contribution matters. As communicators, problem solvers, and innovators, our musicians bring our Vision of the Graduate to life.

Thank you to our band staff, student leaders, families, volunteers, and everyone whose work makes this evening possible. Your support creates opportunities and memories that our students will carry with them long after the final note.

To every band performing tonight, we applaud the hard work and heart you bring to the field. Enjoy the music, cheer one another on, and make yourselves at home here in Naugatuck.

Happy Halloween, and Go Naugy!

"In Pursuit of Excellence"

Welcome to Naugatuck High School!

We're excited to welcome all sixteen ensembles, along with their families, directors, and supporters, to the 2026 USBands Connecticut State Championships!

Our school theme, Learn. Thrive. Belong., comes to life through marching band. Students learn through practice and teamwork, thrive as they build confidence and share their talents, and belong to a community that cheers them on.

Marching band takes musical talent and a whole lot of athleticism that sometimes goes unnoticed. Playing while moving in formation requires stamina, coordination, and focus—and these students make it look easy!

To our Greyhound Marching Band—good luck! We're proud of your hard work and the spirit you bring to the field.

Thank you to the music educators and staff who bring out the best in our students. Your patience, creativity, and countless hours of guidance help them grow as musicians, performers, and teammates. To the families and volunteers working behind the scenes, thank you for the time, energy, and encouragement that make it all possible.

Enjoy the performances, cheer loudly, and help us celebrate every ensemble!

Reign

The Bethel Marching Band invites you to step across the sands of time in their 2026 production, REIGN. Set against the golden majesty of ancient Egypt, this cinematic program charts the awe-inspiring rise and tragic downfall of a legendary pharaoh. Through powerful brass fanfares, exotic woodwind melodies, and driving, ritualistic percussion, the field transforms into an empire battling the forces of betrayal and time. Witness the construction of monuments, the mysteries of the Nile, and the ultimate collapse of a dynasty swallowed by the desert. History forgets the weak, but legends live forever in the eternal majesty of REIGN.

Kintsugi

Inspired by the Japanese art of repairing broken pottery with gold, Kintsugi celebrates the idea that damage and imperfection can become part of an object's history and beauty rather than something to hide. Through the course of their show, the program will explore themes of breaking, rebuilding, resilience, and finding strength in the pieces that remain. The production reflects the reality that growth is rarely linear, but is shaped by challenges, setbacks, and perseverance. Each fracture tells a story, and each golden seam represents the possibility of transformation, reminding us that what has been broken can be reimagined into something extraordinary.

"The Light Within" explores the moments when we feel lost, the light that guides us forward and the people who remind us that we never have to face darkness alone. From uncertainty to hope and from isolation to connection, our show reminds us that even the smallest spark can brighten the darkest moments. Adamas [ah-DAH-mas]

The ancient Greek word "Adamas" [ah-DAH-mas] means "unconquerable," "invincible," or "indestructible," and serves as the root word for DIAMOND. Ancient Greeks also believed diamonds to be broken splinters from fallen stars.

Adamas is a celestial voyage through the heavens and captures the wonder of the night sky with twinkling arrangements, constellation formations and celebrates the stars' eternal glow. This show features the popular song "Diamonds" by Rihanna.

Currents

"Currents" explores the forces that move, energize, and shape our world through three distinct movements: Wind, Electricity, and Water. The production transitions from the light, sweeping textures and swirling motion of atmospheric gusts into the sharp, high-voltage precision of electrical energy. Finally, fluid drill structures and surging melodic waves converge in the third movement, demonstrating the irresistible power and motion of water. Together, the visual and musical motifs illustrate the seamless transformation of kinetic energy across nature
