LSHS	Lake Stevens High School
SILC	Secondary Innovative Learning Center
CK	Central Kitchen

SCHEMATIC DESIGN = focuses on the big picture. We take ideas and needs and turn them into concepts for the overall layout of the building, placement on the site, the approximate size and shape of the building, and general room locations

DESIGN DEVELOPMENT = we add details and precision to the concept, including exact room sizes and layouts, structural and mechanical systems, and materials and finishes

PHASES OF CONSTRUCTION

Schematic Design → Design Development → Construction → Move in
