Dr. Daniel A. Clara
Superintendent of Schools

October 23, 2026

To the School District of Borough of Morrisville Learning Community:

Dr. Martin Luther King, Jr. once wrote, "Intelligence plus character—that is the goal of true education." As I begin my first day serving the School District of Borough of Morrisville, I am reminded of these powerful words. A great education does not just train the mind. It also builds character.

To achieve this aim, we must work together. Success requires trust and teamwork between our teachers, staff, families, administrators, the School Board, and our community partners. Everything we do will have one clear focus: we work in the service of students.

In the coming weeks, I will be visiting with students and teachers. I look forward to building strong relationships as we know that those connections help our students grow and gain confidence as learners and as individuals.

Morrisville has an important history that is rooted in community pride and strength. It is up to all of us to build upon that strong foundation. Together, we will make sure our schools are safe, welcoming and focused on student achievement and growth. In this way, we can provide the tools and experiences that students will draw upon as they plan for their futures.

I am honored to serve as your superintendent, and I am proud to be a Bulldog.

Yours in education,

Daniel A. Clara, Ed. D
