EHS October 2026 Senior Spotlight: Meet Nathaniel Muntone

It is October of your senior year. Fall Spirit Week was last week, and Homecoming was Saturday, October 24, 2026. You were a nominee for the Senior Class Homecoming Court. Congratulations.

Tell us the best part of Fall Spirit Week this year.

The best part of Fall Spirit Week was Wacky Wednesday and Y2K Day. On Wacky Wednesday, everyone was coming up to me and saying, "Oh, you're wacky." Many teachers and students also complimented my outfit on Y2K Day, saying I looked like I was straight out of the 2000s.

The Ewing High School Boys Varsity Soccer season is finished for your senior year. What were the team highlights this season? Any last words for your teammates and coaches?

I think the team highlight of this season was our 2-1 win over West Windsor Plainsboro North High School since they are a solid team and part of the CVC. We were in a little bit of a slump going into that game, so pulling out a win really boosted our morale. Another highlight, even though we lost, was our 3-2 loss to Trenton; we came into the game without three of our starters, and players came up from the JV team to start. We really gave Trenton a run for their money!

My last words to my coaches are: thank you for putting in all the time over the past four years. Thank you for always believing in me and pushing me to be a better player and the leader that I am today.

To my teammates, I want to say that I wouldn't want to play my high school years of soccer with any other team, and even though the seasons didn't go our way, I still love you all.

You were honored to be selected as a Peer Leader; how do you define your role?

I think my role as a Peer Leader is to be a positive role model and a mentor to all the freshmen. I want them to be able to trust me and come to me with any problems that they have. In my class, I want to have a safe space where no one feels overwhelmed or scared to ask questions without fear of judgment. I don't have any real authority or the power to grade work, so all I can do is listen to them and point them in the right direction for the rest of their high school years.

What is your favorite subject?

My favorite subject is math, and it has always been math. I see math as sort of a game, and that really started in elementary school when you had to race to see who could solve all the multiplication problems the fastest.

Who is your favorite teacher and why?

My favorite teacher is Mr. Hahn. He has seen me grow over the years, from a little boy to an adult about to go to college. He has been my lacrosse coach, soccer coach, Unified coach, and my teacher in Unified gym. I think Hahn always knew I had something in me, especially when I started playing lacrosse freshman year. He said from the start, “This is the group of kids that will change the program.” Without Hahn, I wouldn’t have taken a liking to the sport of lacrosse and become so serious about the sport. As well as with lacrosse, I might not have gotten so involved in the Unified programs at school if it were not for Hahn, and I love being a part of the Unified programs.

What activities do you participate in at school?

At school, I participate in soccer and lacrosse in the fall and spring, as well as Unified Bowling in the winter. Soccer has always been my sport growing up, and I’ve played it and been around it my whole life. Then, after soccer season freshman year, Coach Hahn convinced me to play lacrosse to stay in shape for soccer season. I’ve taken such a liking to the sport, and last year I scored 39 goals and had 10 assists in a single season, adding up to a total of 58 goals in three years. I'm pushing to reach the 100-goal milestone by the end of my final season this spring. While I would say I think I’m arguably the best at lacrosse, I haven't won a state title in either soccer or lacrosse as I did in Unified Bowling and Unified Soccer.

My freshman year, I joined Unified Soccer since I was still on the JV soccer team, and that was the greatest decision of my life. Being a part of the Unified Soccer program and playing

alongside all of my new friends to win us the state title was so fun. After such a memorable season, I joined Unified Bowling. In the state tournament, I bowled on the competing team and helped win us the state title to continue our state champion streak. I continue to participate in Unified Bowling and hope that this year we can win the state title just like we did my freshman year to end my bowling career with a bang.

What awards or acknowledgments have you received in school or outside of school?

I received the Joshua Scott Citizenship Award, which is given to only one freshman every year. The award is given to someone who exemplifies the positive traits, character, and exceptional student citizenship that Joshua Scott showed during his time at Ewing High School. The recipient is chosen based on their outstanding community mindset, school spirit, academic dedication, and overall demonstration of being a kind, well-rounded, and respectful individual.

For lacrosse, I've received a few awards over the years. I received the Lacrosse Athlete of the Month twice, once freshman year and once junior year. Freshman year, I won the Attacker of the Season Award at our banquet. Then last year at our end-of-year banquet again, I won the Attacker of the Season Award. I also received the prestigious USA Lacrosse All-Academic Award, which is a national award to recognize high school student-athletes who excel on the field, display good sportsmanship, and maintain high standards in the classroom.

In soccer, I was named a 2025 All-CVC 3rd Team Midfielder, making me the only person on the team to be named to one of the teams.

Finally, I won the Most Valuable Player award for Unified Bowling last season.

What is your favorite memory of high school to date?

My favorite memory of high school was the soccer game against Hamilton West last year at our senior night. We played under the bright lights in the dark, with packed-out stands. Everyone was so loud and rooting for us. In that game, I scored two goals to win us the game 2-1. After each goal, there was a loud pop from the fans, and everyone was screaming and clapping. Both of my goals were rebounds from free kicks, where I was able to tap the ball in for easy goals. After my second goal, the crowd was even louder than the first time. I ran over to the side and did my bow and arrow celebration that one of my favorite soccer players Dominic Solanke does. My friend Sidney was taking pictures and videos of the team that day, and it just so happens he got my second goal and celebration on video. He brought a marker and a clear screen to the game, so after I scored, I was able to sign the camera lens. I felt on top of the world after that game, and when I came home, there were so many people talking about me, the game, and the video online. Sidney posted the video clip of me scoring and signing the camera, and I still go back and look at it every so often, remembering that crazy night.

What are your plans after you graduate from Ewing High School?

After I graduate high school, I want to go to college and get a degree in engineering. My dream school I want to get into is Duke University. My dream degree would be in aerospace engineering, but it happens to be very hard to find jobs with that degree after college; yet I think it is still so cool. I think I will do civil engineering or mechanical engineering. I have built Legos my whole life, with my newest one being the spaceship from the new movie Project Hail Mary. I have also always been fascinated with roller coasters, and those two reasons are why I want to go into engineering.

What is your favorite quote or book?

My favorite quote is from the movie Good Will Hunting; it is just one of Robin Williams' many inspiring and wise lines from this movie.

"And then we get to choose who we let into our weird little worlds. You're not perfect, and let me save you the suspense: this girl you met, she is not perfect either. But the question is whether you're perfect for each other."

I really see myself in Will Hunting, and this quote opened my eyes up about love and soulmates. The line about letting someone into your weird little world will always sit with me.

What is your favorite food?

My favorite food ever is probably mac n cheese, either baked mac n cheese or pulled pork mac n cheese. (Specifically, from Tommy's Tavern!)
