Mosyle School – Install Apps

About Mosyle School

With our migration to Mosyle School, there is a new process of installing District-provided apps to District-assigned iOS devices. Instead of using Self Service or Jamf Teacher, staff will now use a location within Mosyle School to find and install apps. Please refer to the steps in this guide to successfully install apps onto your District-assigned iOS device.

Installing Apps from Mosyle School

Mosyle School

- Tap the **Mosyle School app icon** to open the app.
  - If it's your first time, you'll need to:
    - Accept App Privacy
    - Allow Bluetooth
    - Allow Location Services
    - Allow Notifications
- On the menu, tap **My Apps**
- Use the search bar or scroll through the apps to find the one you want to install.
- Tap **(Re)Install/Update** on the apps you want to install.
