Accessing Your Child's MAST Assessment Reports

Dear Parents/Guardians,

Families of students in grades 3–8 can access their child's Montana Aligned to Standards Through-Year (MAST) assessment results through the secure Kite Parent Portal.

MAST is administered throughout the school year in smaller assessments called *testlets*. The Parent Portal provides families with access to individual testlet results in English Language Arts and Mathematics.

How to Access Your Child's Results

1. Visit the [MAST Kite Parent Portal](#).
2. Enter the email address registered with the school district.
3. Request an access code. A code valid for 24 hours will be sent to your email.
4. Enter the code to access your child's available reports.

If you do not receive an access code, check your spam or junk email folder.

Understanding the Reports

Individual testlet reports provide information about the skills assessed and your child's performance on assessment questions. These results can help families understand student strengths and areas where additional support may be beneficial.

MAST assessment results are one source of information about student learning and should be considered alongside classroom performance and other assessments.

If you have questions about accessing or understanding your child's reports, please contact your child's teacher, principal, or the Curriculum and Assessment Department.

Sincerely,
Erin N. Ellis, Ed.D.
