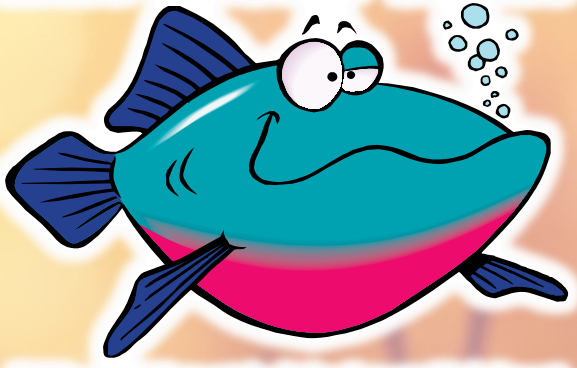
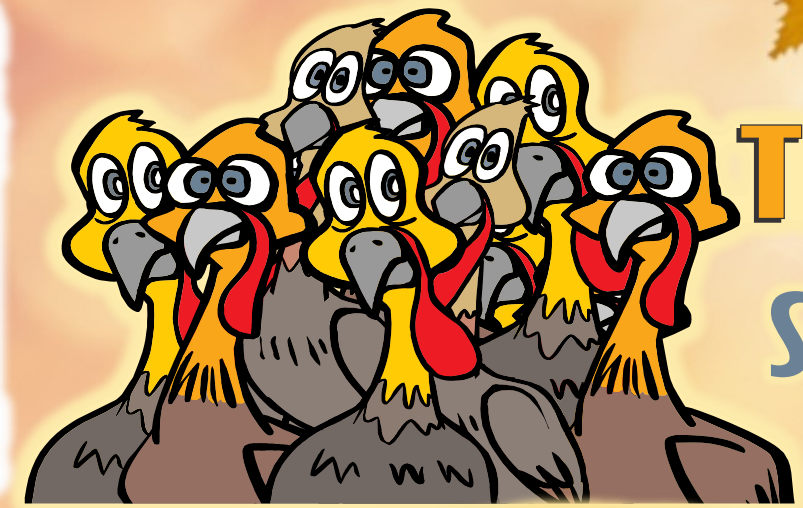
What's on YOUR plate?

Eat more fish!



Fish is a healthier protein choice than any kind of meat or poultry. Yet most of us eat fish less often. Put seafood on your plate more frequently for better health!

TIP: Search for "Cranberry Sauce Recipe" and make your own this year. It's quick and simple and much healthier!



Happy Thanksgiving!

See you Monday!

NUTRITION TO GO

Thanksgiving dinner is full of variety and nutrients. Turkey is a high-protein, low-fat meat, and the big meal is usually served with an array of tasty veggies. To keep your dinner healthier, cut back on the dressing and gravy a little, limit the bread and butter, start off with smaller portions, and rest a bit before going back for more!

A QUICK BITE FOR PARENTS

Many Moons

Native Americans had special names for every full moon of the year. One name for the November full moon is the "Much White Frost on Grass" moon, because November is when the cold weather sets in.
