Principal Message

Grizzly Families,

This week Officer Bell, Kim Marsh, and I covered very important safety reminders with students and sent all families a letter explaining the school process when students use language or display actions which are unsafe. While we've clarified this with all students nearly a dozen times this year, we continue to hear about situations when students react emotionally even though there are no intentions of harm. Please see the safety reminder letter sent earlier this week.

Due to situations which occur in schools across the country these days, which didn't occur when many of our parents and staff were students in school, each situation must be dealt with seriously and with thorough investigation and school sanctions (consequences). With any students discussing, gesturing, and/or idealizing violence they can experience significant changes to their school structure and social interactions with peers. While we do not want to impose sanctions for students, people being safe and feeling safe in school is the most important expectation for our school community.

On a separate note, we are working to implement more frequent communication tools regarding student grades and attendance. For example, we are going to start sending letters to families of students who regularly attend school, celebrating attendance. Another example is our goal to begin grade progress checks each week.

As always, reach out to our office with any questions, concerns, or feedback. Thank you!
