Berkshire Veterans Project Question Starters

Berkshire experience:
Where did you live growing up before you came to Berkshire?

What years were you on campus?

What brought you to Berkshire?

What were your plans when you graduated?

While at school, did you have plans that included the military?

If yes, what were they?

If no, what changed?

Military service:
When did you join?

Why did you join?

How old were you when you went in?

What branch were you in?

Why did you join that branch?

What job did you do?

Where did you serve?

How long did you serve?

Did your education at Berkshire have any influence on the job you got in the military or how you did it?

Did your service detract from or did it enhance your original graduation plans?

Was there anything from your time at Berkshire that helped you in the service?

How did your service influence your life after the military?

Would you do it again?
