REGIONAL OCCUPATIONAL PROGRAM
Inspiring Possibilities

Welding

Manufacturing & Product Development

Build hands-on welding skills while learning industry techniques, safety practices, and precision metalworking. Gain experience in welding and cutting processes while preparing for careers in skilled trades and manufacturing.

Spark Your Skills. Build Your Future.

- **Industry Preparation** — Build industry-standard welding skills through hands-on training while preparing for careers in the skilled trades.
- **Cost Savings** — Gain valuable welding training and hands-on experience during high school at no tuition cost, helping reduce training expenses.
- **College Credit —** Students who complete Welding 1 and 2 may qualify for 3 college credits through RCCD or 2 credits through SBVC

YOUR PATHWAY

Welding Technology 1
Concentrator

Learn foundational welding techniques, equipment safety, and metalworking skills through hands-on training.

Welding Technology 2
Capstone

Advance your welding and fabrication skills through specialized techniques and hands-on projects that prepare you for industry careers.

Welding Technology 3/4 | Advanced Option

Master advanced welding and fabrication skills while preparing for industry certifications and careers.
