REGIONAL OCCUPATIONAL PROGRAM
Inspiring Possibilities

# Graphic Communications

## Manufacturing & Product Development

Explore the creative world of graphic design, printing, and visual communication. Gain hands-on experience using industry-standard software to design and produce professional publications while preparing for careers in graphic communications.

## Design. Create. Inspire.

- **Industry Preparation** —Develop graphic design, printing, and production skills while preparing for careers in the creative industry.
- **Cost Savings** — Gain hands-on engineering and technical training during high school at no tuition cost, reducing future education expenses.
- **College Credit** — Students may qualify for college credit through articulation agreements, subject to eligibility requirements.

## YOUR PATHWAY

### Graphic Communications 1
**Concentrator**

Learn graphic design fundamentals, typography, and printing techniques while creating projects using industry-standard software.

### Graphic Communications 2
**Capstone**

Advance your design and production skills by creating professional print projects in a hands-on print shop environment.
