COLTON REDLANDS YUCAIPA
REGIONAL OCCUPATIONAL PROGRAM
Inspiring Possibilities

Construction Technology

Building & Construction Trades

Build real-world construction skills through hands-on projects. Students learn measurement, hand and power tools, framing, roofing, blueprinting, site preparation, and construction safety while preparing for careers.

BUILD. CREATE. CONSTRUCT.

- **Industry Preparation** — Gain hands-on experience while preparing for careers in the building trades.
- **Cost Savings** — Earn up to 3 college units, potentially saving about $138 in California-resident college enrollment fees.
- **College Credit** — Complete Construction Technology 1 & 2 and earn a B or better to qualify for 3 units of RCCD credit for CON-60: Intro to Construction.

YOUR PATHWAY

Construction Technology 1
Concentrator

Build a foundation in construction through hands-on projects while learning measurement, tools, materials, technical drawings, and workplace safety.

Construction Technology 2
Capstone

Advance your construction skills through more complex projects while completing the pathway and preparing for college credit and careers in the building trades.
