The choice of provider is yours. This site is for informational purposes only. It is not a substitute for medical, behavioral health, dental, vision, or health care advice. This directory does not recommend a particular provider or type of behavioral health, medical, dental, vision or health care. If you believe you are experiencing a medical emergency, please call 911.

Before scheduling an appointment or receiving services, please check with the provider and your health plan to confirm that the provider is participating, that the service is covered, and the costs that you may be charged for the service. The directory is updated weekly. If you think any information in the directory is inaccurate, let us know by clicking on 'Report Incorrect Information' on that provider's page, or calling the number on your health plan member ID card.

Smart Choice is a personalized search experience that helps you find quality care options based on your needs and preferences.

UnitedHealth Premium® is proprietary to UnitedHealthcare. UnitedHealth Premium evaluates physicians based on safe, timely, effective and efficient quality care criteria to help members make more informed choices for their health care. **It's intended only as a guide and should not be the sole factor considered when selecting a physician. Designations have a risk of error and members should discuss designations with a physician before choosing one. If a member already has a physician, they should also consult with them for advice on selecting other physicians.** The fact that a physician does not have a Premium Care Physician designation does not mean that the physician does not provide quality health care services. All physicians in the UnitedHealthcare network have met certain minimum credentialing requirements (separate from the UnitedHealth Premium criteria). Please visit the medical care directory specific to the member's benefit plan for physician designations and detailed information about UnitedHealth Premium and the evaluation methodology.
