Inspiring Possibilities

Careers in Child Development

Education, Child Development & Family Services

Explore careers in early childhood education through hands-on experiences with children of different ages. Through collaboration with the neighboring preschool and visits to a local elementary school, students develop practical skills in child development, classroom support, learning activities, and positive guidance while preparing for future careers in education and childcare.

Learn. Teach. Grow.

- **Industry Preparation** — Gain hands-on experience supporting children of different ages through preschool collaboration and elementary school visits.
- **Cost Savings** — Gain valuable child development training and practical classroom experience at no added course tuition cost through CRY-ROP.
- **College Credit** — Explore articulated college credit opportunities through Careers in Child Development 1, subject to college-specific eligibility requirements.

YOUR PATHWAY

Careers in Child Development 1
Concentrator

Build a foundation in child development, classroom activities, health and safety, and positive guidelines.

Careers in Child Development 2
Capstone

Advance your skills in child development, lesson planning, classroom support, and teaching strategies through real-world experiences with children.
