Learning Together

One of the things we value most about Community Education is how it brings people together. Every class, activity and program creates an opportunity to learn something new, meet new people and strengthen our connection to the community.

Whether you're exploring a new interest, developing a skill or just looking for an experience to enjoy with a friend, we hope you'll find an opportunity that inspires you. Each time we challenge ourselves to learn something new, we build confidence, discover new possibilities and empower ourselves to keep growing! Inspired by our District's commitment to empowering self, students and staff, we believe learning can enrich lives at every age while helping create a stronger, more connected community. Behind each opportunity in this catalog is the intentional work of our Community Education team, who thoughtfully design programs and experiences that reflect the interests, needs and passions of our community. Big shout out to the Minnetonka Community Ed team!

We look forward to learning with you.

Kim Carlson | Executive Director of Minnetonka Community Education

How do Youth Recreation programs help students develop *confidence*?

Youth Recreation builds confidence in students by helping them explore new activities, learn new skills and experience success in a supportive environment.

Ethan Wolfe | Recreation Program Manager

How does Explorers create an environment where students feel *empowered*?

At Explorers, we empower students by giving them opportunities to make choices, develop new skills, and take ownership of their experiences. We create a supportive environment where every child feels valued, capable and confident in being themselves.

Brittany Bell | Explorers Program Manager

What does *empowerment* mean to you in your role as a preschool teacher?

To me, empowerment means equipping my students with the confidence and tools they need to solve problems, make thoughtful choices and take true ownership of their learning. Nothing is more rewarding than guiding a student as they learn a new skill, then watching them take the initiative to tackle—and master—the next challenge on their own!

Self-empowerment starts with knowing yourself. I created AlignUp™ to give students the space to explore who they are and what matters most to them, while building the skills and confidence to lead themselves and others. My hope is that students leave with a greater sense of clarity and direction, and the confidence to stay grounded in who they are and lead from that place as they navigate expectations, pressure and what comes next.

Early Childhood Family Education

Join us! We're here to help you and your kids grow!
ECFE is based on the idea that parents provide their child's first and most significant learning environment. ECFE works to support you as a parent/caregiver and to strengthen and empower families. Class Schedule
Classes meet once a week at the Minnetonka Community Education Center and include parent-child play focused on developmental learning and educator-led discussions. During a typical class, parents spend time with their children, then move to a nearby room for a discussion led by a licensed parent educator.

ECFE classes are taught by teachers who are licensed by the state of Minnesota in early childhood and/or parent education.

Sliding Fee Scale
ECFE class tuition is based on a sliding fee scale.

What's new this season at *Minnetonka Music Academy?*

This winter and spring, we are expanding opportunities through our new non-school day music classes and adult chamber music groups. We are especially excited for our middle school Philharmonic Orchestra students as they prepare to tour schools across the district, performing their competition repertoire for elementary students. This unique outreach experience gives orchestra members valuable performance opportunities while inspiring younger students to explore orchestral music and consider joining the program in the future.
