After-School Science Class

This Semester's Theme:
Amazing Earth

- In Amazing Earth, young scientists will explore the Earth and its natural processes through hands-on geology, meterology, and ecology activities and experiments!
- Students will leave the program having developed a deeper understanding and appreciation of the planet we live on.

iSTEAM After School

STE(A)M Classes for Kids

- Students will explore the connections between science, technology, and arts
- Learn through hands-on experimentation and real-world applications of scientific concepts
- Prepare for the future by developing critical thinking and problem-solving skills
