NOVEMBER

Library Newsletter

Since the start of the school year, the library has catalogued over **80 new books!** I'd love to hear your suggestions for what else the library could use, whether it's new books, resources, or materials. Feel free to fill out the Library Suggestion Form on the library homepage.

You'll also find citation tips and research tools on the library website that students can use to help with their assignments and projects.

November is Native American Heritage Month, and the library will be highlighting books and primary sources that celebrate Indigenous voices, cultures, and history. Be sure to check out the featured materials throughout the month, and don't forget to enter the secret book giveaway!
