Home of the Chiefs!

Academic Opportunities

North Myrtle Beach High School provides a safe, nurturing, and academically competitive learning environment that is innovative and student-centered. This environment is provided through the implementation of our school's vision: to be recognized as one of the premier schools in one of the nation's premier school systems, in which every student receives an excellent education. North Myrtle Beach High School demonstrates this vision by offering a variety of opportunities in both academics and extracurricular activities for students to broaden their experiences and foster their talents. In addition to core academic courses, students have opportunities to study in the areas of business, culinary arts, dual-enrollment courses through Horry-Georgetown Technical College, Advanced Placement courses, STEM courses, visual arts, performing arts, band, orchestra, Spanish, and Naval Junior ROTC. Our many extracurricular opportunities also give students opportunities to engage in community service opportunities while building experiences.

In 2027-2028, NMBH will launch a new program for our 9th graders through our Hospitality and Tourism CTE pathway called the 3DE Experience. In this program, learning opportunities are embedded in the core curriculum, where case methodology integrates industry and postsecondary exploration through project-based design to create space for students to build the cognitive skills needed to navigate today's complex economy.

During the 2025-2026 school year, our College and Career Readiness increased to 89.3%. To help our students become College, Career, and Military Ready, we offer Project Lead the Way courses, including Essentials of Engineering, Engineering Design, Computer Science Principles, Civil Engineering and Architecture, Principles of Biomedical Sciences, Human Body Systems, and Environmental Sustainability.

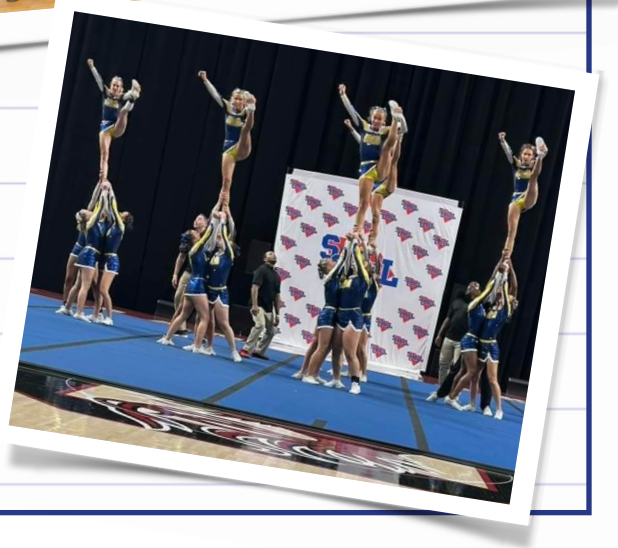

Entrance Requirements:

Students from the North Myrtle Beach High School attendance area who have successfully completed middle school are eligible to attend NMBHS.
