Home of the Tigers!

Academic Opportunities

Conway High School is committed to preparing every student for success in college, careers, and life. We offer a comprehensive high school experience with a wide range of academic opportunities, including college preparatory, honors, Advanced Placement (AP), dual-enrollment, and Career and Technical Education (CTE) courses. Students also have opportunities to excel in fine arts, athletics, and extracurricular activities.

Our Advanced Placement offerings include English Literature and Composition, English Language and Composition, Human Geography, Environmental Science, Calculus AB and BC, Government, and U.S. History.

Conway High School is proud to be the first high school in South Carolina to implement 3DE, an innovative instructional model that connects classroom learning to real-world business challenges. Through partnerships with local businesses and community leaders, students develop critical thinking, problem-solving, communication, and collaboration skills while gaining valuable exposure to career opportunities. The 3DE experience helps students understand the relevance of what they learn in the classroom and prepares them for success beyond high school.

We also offer AVID (Advancement Via Individual Determination), a college and career readiness program designed to help students develop the academic skills, organization, leadership, and study habits necessary for success in rigorous coursework and postsecondary education.

As a Cognia-certified STEM school, Conway High School emphasizes Science, Technology, Engineering, and Mathematics through hands-on learning and real-world problem-solving. Our Project Lead the Way programs in Engineering, Computer Science, and Biomedical Science provide opportunities to earn honors credit and potentially dual-enrollment credit.

Our Career and Technical Education programs offer students valuable opportunities to explore careers and earn industry-recognized certifications. Programs include Pharmacology Technology, Veterinary Science, Hospitality and Tourism, Health Science, Sports Medicine, and Horticulture/Agricultural Science.

At Conway High School, we believe every student deserves access to challenging academic opportunities, meaningful learning experiences, and a pathway to success after graduation.
