

Traditional Kindergarten

Curriculum Highlights

Religion

Nurtured in an atmosphere of love and respect, kindergarten students build a strong foundation of faith at St. Ursula Villa. Students grow spiritually by participating in daily prayer, learning about Bible characters and lessons, and taking part in grade-level Masses and prayer services.

Language Arts

Using the Savvas Literacy program rooted in the Science of Reading, students develop foundational reading skills. This comprehensive approach builds phonological awareness, decoding abilities, and sight word recognition, helping kindergarteners become successful readers by mastering the relationship between spoken sounds and written language.

Math

Through the Cengage Math & You program, kindergarteners engage in interactive, hands-on learning that provides both enrichment and differentiation. Students explore essential early math concepts including one-to-one correspondence, counting, patterning, sorting, problem-solving, basic addition and subtraction, telling time, and counting money.

Science

Guided by the Interactive Science series, kindergarten students take a hands-on approach to exploring foundational science standards. Students actively participate in engaging science experiments throughout the year.

Social Studies

Using the Little Thinkers program, students engage with foundational social studies topics tailored for early learners. The curriculum guides children in discovering early concepts of geography, government, economics, and diverse cultures.

Leader In Me

Kindergarteners learn that everyone has the potential to lead. This approach nurtures student leadership, fosters a culture of trust, and empowers children with essential life skills, laying the groundwork for personal growth and academic success.

Specialty Classes

- French/Spanish
- STEM
- Music
- Art
