

Traditional Preschool

Our Traditional Preschool offers an engaging, thematic approach to early education where a strong curriculum builds foundational early literacy and math readiness, while fostering creative expression through art, music, and dramatic play. With separate classes designed specifically for 3 and 4-year-olds, this welcoming environment allows your child to build confidence, develop essential academic skills, and experience the joy of learning alongside their friends.

Curriculum Highlights

Students build foundational academic skills through hands-on literacy activities, using engaging tactile tools to teach proper letter formation and develop fine motor precision.

A focused math curriculum uses playful manipulatives, music, and rhymes to teach counting, patterning, sorting, and problem solving.

Students explore science and social studies through thematic based lessons that emphasize nutrition, seasons, ocean life, rain forest, and life cycles.

The program encourages essential self-help skills by teaching children to take responsibility for themselves, be kind to classmates, and help clean up the classroom, all while building fine motor skills and the attention span to complete activities.

Students cultivate independence and responsibility through the Leader in Me framework, while building a strong spiritual foundation through age-appropriate prayers and stories.

Creative expression is nurtured through dramatic play and weekly specialty classes in Art, Music, Library, and Physical Education.

Program Details

- Separate classes by age group
- Full-day and half-day sessions
- Schedule options from 3-5 days
- Age 3 or 4 by August 15
- Must be fully toilet trained
