

Montessori Program

Our Montessori Preschool provides a hands-on, child-centered approach to early education within a multi-age environment, allowing your child to explore and progress at their own pace. Each student receives individualized math and language instruction tailored to their unique learning style. As they engage with specialized Montessori works and manipulatives, children naturally develop concentration, coordination, independence, and a sense of order. Science, geography, practical life, and art lessons are introduced in a large group format, building confidence and fostering the joy of self-directed learning.

Curriculum Highlights

Students build foundational literacy skills by using tactile sandpaper letters to introduce sounds and a moveable alphabet to form words, blending a phonics-based reading series with sight word study.

A focused math curriculum develops a solid mathematical foundation and problem solving skills by guiding students to manipulate concrete materials, preparing them for future abstract reasoning.

Students explore science and social studies through thematic lessons that emphasize geography, biology, botany, and zoology, cultivating a deep respect for diverse people and cultures around the world.

The program fosters practical life skills by teaching care for self, others, and the environment, while developing fine motor precision and the focus to see a task through from start to finish.

Students cultivate leadership and faith through the Leader in Me framework to develop independence and responsibility, utilizing engaging games, prayers, crafts, and stories to build a strong spiritual foundation.

All students enrich their Montessori experience through weekly specialty classes in Art, Music, Library, and Physical Education, while Kindergarteners also receive instruction in STEM, French, and Spanish.

Program Details

- Multi-age environment
- Full-day and half-day options for Preschool
- Full-day schedule for Kindergarten
- Schedule options from 3-5 days
- Age 3, 4, or 5 by August 15
- Must be fully toilet trained
