

1st Grade

Curriculum Highlights

Religion

First graders learn and grow in a nurturing environment grounded in God's unconditional love. Students grow in their faith and spiritual understanding through prayer, song, engaging activities, continued Bible study, and regular participation at Mass.

Language Arts

Using the Savvas myView Literacy program, students receive phonics-based instruction tailored with individualized support. This comprehensive approach guides each student in developing foundational skills in reading, grammar, spelling, and writing.

Math

Through the Cengage Math & You program, first graders reinforce early math concepts using both hands-on activities and written calculations. Students build their skills in math facts through 20, while exploring place value, two-digit addition and subtraction, time, money, graphing, patterning, measurement, fractions, and probability.

Science

Guided by the Interactive Science series, students take a hands-on approach to exploring the world around them. Units cover a wide range of foundational topics, including the scientific method, the design process, living things and their environments, earth and sky, matter, and movement.

Social Studies

Using the Little Social Studies Thinkers program, students engage with topics such as responsible citizenship, families past and present, Pilgrims and Native Americans, holidays around the world, American laws and symbols, community economics, and geography. This curriculum is designed to nurture a strong sense of community and well-being.

Leader In Me

First graders learn how to develop lifelong skills in self-management, respect, problem-solving, and self-assessment. Students put these principles into action by collaborating to create classroom mission statements and setting personal goals.

Specialty Classes

- French/Spanish
- STEM
- Music
- Art
- Library
- Physical Education

St. Ursula Villa

Cultivating Confident Learners & Compassionate Leaders
