STEM Expo 2026 Showcases Top Student Innovators in the St. Croix District "Celebrating Student Creativity, Innovation, and Academic Excellence"

The Virgin Islands Department of Education (VIDE) is excited to announce the STEM Expo 2026**,** an annual event celebrating the top student winners of school science fairs across the St. Croix District. The Expo will be held at UVI RTPark on April 23, 2026**,** and is proudly sponsored by the Virgin Islands Department of Education, Division of Curriculum and Instruction STX District, and the UVI RTPark from 9:00 am-12:00 pm. The event will highlight the creativity, innovation, and hard work of K–12 students in science, technology, engineering, arts, and mathematics (STEAM).

The Expo provides the top five winners from each participating school the opportunity to present their projects to the public, demonstrating critical thinking and problem-solving skills. In addition to showcasing their projects, students will be recognized for their exceptional creativity and scientific inquiry through awards and prizes.

The STEM Expo supports academic excellence by encouraging students to apply classroom knowledge to real-world challenges, engage with digital tools, and develop strong communication skills. It also fosters meaningful engagement between students, educators, and community members, celebrating achievement and inspiring continued growth in STEAM education.

The Virgin Islands Department of Education extends sincere appreciation to UVI RTPark and the VIDE Division of Curriculum and Instruction for sponsoring the event, as well as to the participating schools, volunteers, and community partners who help make the STEM Expo 2026 a success.
