

Toddler Program

Our Toddler Program provides a nurturing, play-based approach to early education where small classes provide meaningful enrichment and socialization, while fostering early growth, independence, and a natural love of learning. In this safe and welcoming environment, your child will build confidence, make their first school friends, and experience the joy of daily discovery.

Curriculum Highlights

The Toddler Program fosters independence, self-esteem, and cooperation through shared play and predictable classroom routines.

Students develop expressive communication skills using engaging books, songs, puppets, and dramatic play.

Daily activities improve gross motor balance (jumping, climbing) and fine motor precision (writing, cutting, drawing).

The classroom nurtures imagination through dedicated sensory, art, and block centers.

Our curriculum introduces beginning academic concepts naturally within a play-based, supportive environment.

The daily routine is enhanced with special visitors, including story time with our school librarian and engaging sessions with our music teacher.
