Virgin Islands Department of Education Announces Immediate Dismissal at Ricardo Richards Elementary School Due to Water Service Disruption

The Virgin Islands Department of Education (VIDE) announces the immediate dismissal of students and staff from Ricardo Richards Elementary School due to the lack of access to water on the school campus.

The decision was made out of an abundance of caution, with the health, safety, and well-being of students, faculty, and staff remaining the Department's highest priority. Access to a reliable water supply is essential to maintaining appropriate health, sanitation, and safety standards within the school environment.

Parents and guardians are asked to make the necessary arrangements to pick up their children as soon as possible and to follow any additional instructions provided by school administrators.

The Department is working with the appropriate personnel to address the water service issue. Updates regarding the restoration of water service and the school's reopening will be communicated through official Virgin Islands Department of Education communication channels.

The VIDE appreciates the patience, understanding, and cooperation of parents, guardians, students, and staff as efforts continue to resolve this matter.
