Cook Children's

A CALL FROM THE SCHOOL NURSE DOESN'T HAVE TO COST YOU A WHOLE DAY'S WORK.

LET US HELP.

You can now connect virtually with a Cook Children's nurse practitioner, your child and the school nurse. Together, we can help your child feel better faster.

HOW IT WORKS:

Using specialized equipment and working with your child's school nurse, the Cook Children's nurse practitioner will be able to look in your child's ears and throat, listen to their heart and visually assess other symptoms. Strep and flu tests also can be performed. If necessary, a prescription can be sent electronically to your preferred pharmacy.

DOES THIS SOUND TOO GOOD TO BE TRUE?

It's not!

CONDITIONS THAT CAN BE TREATED:

- Abrasions and scrapes
- Coughs and colds
- Earaches
- Fever
- Flu
- Lice
- Minor skin infections
- Pinkeye
- Rashes
- Scabies
- Sore throat
