Skill 11.2

Long Vowel Silent-e: Simple Multisyllable

In small-group intervention, we will learn to read and spell closed-silent-e multisyllable words with the simple division pattern.

Long Vowel Silent-e Syllable	A long vowel silent-e syllable is one vowel letter, one consonant, and a final silent-e. The vowel sound in a silent-e syllable is a long vowel sound.
Simple Division	A word follows the simple division rule when it has two consonants between its vowel sounds and its syllables are divided between the two consonants, as in pic|nic.

engage	dislike	update	invite
compile	escape	costume	suppose
obtuse	inhale	compute	ignite
subside	advise	confide	mistake
combine	cascade	unlike	rescue

confide in her	storm will subside
I suppose it	will subside if
cascade from the	inhale the smell
rescue the cat	costume looked like
can advise you	when you compute
