For students who attend a Washington state college, technical school or university:

- Students who qualify for FAFSA will automatically qualify for WA state aid.
- College Bound scholarship recipients may also qualify for additional financial support from the institutions (colleges or universities) - Reminder that this is all income-based eligibility not merit.

So those students who are citizens or green card holder (can apply for FAFSA), can possibly qualify for aid from:

FAFSA → WASHINGTON STATE GRANT→ Financial aid from college attending → WSOS

Students can also apply for other scholarships as well!

Tips for the college application process

- It may be beneficial for students to apply to both private and public colleges and universities.
- Private colleges and institutions may have financial aid outside of Federal and State funds that they offer to students based on financial need.
- Work with your child to determine outside costs of college attendance – transportation, travel, clothing, entertainment (going out), miscellaneous
- Prepare your child for life in a dorm or apartments if they are moving out
- Celebrate this new journey and college life with your child.

Application Choices

- **Early Decision** – Plans are binding. Student who is accepted must attend that college.
  - Early Decision is restrictive. Top choice for student – regardless of financial aid offers.
- **Early Action** – Non-binding. Students receive an early response but do not have to commit to the college until May 1st.
- **Regular Decision** – When the application is due. Standard deadline.
  - Early Action and Regular Decision allows students more flexibility to wait and consider all financial offers before committing to a specific college.

ISSAQUAH SCHOOL DISTRICT 411

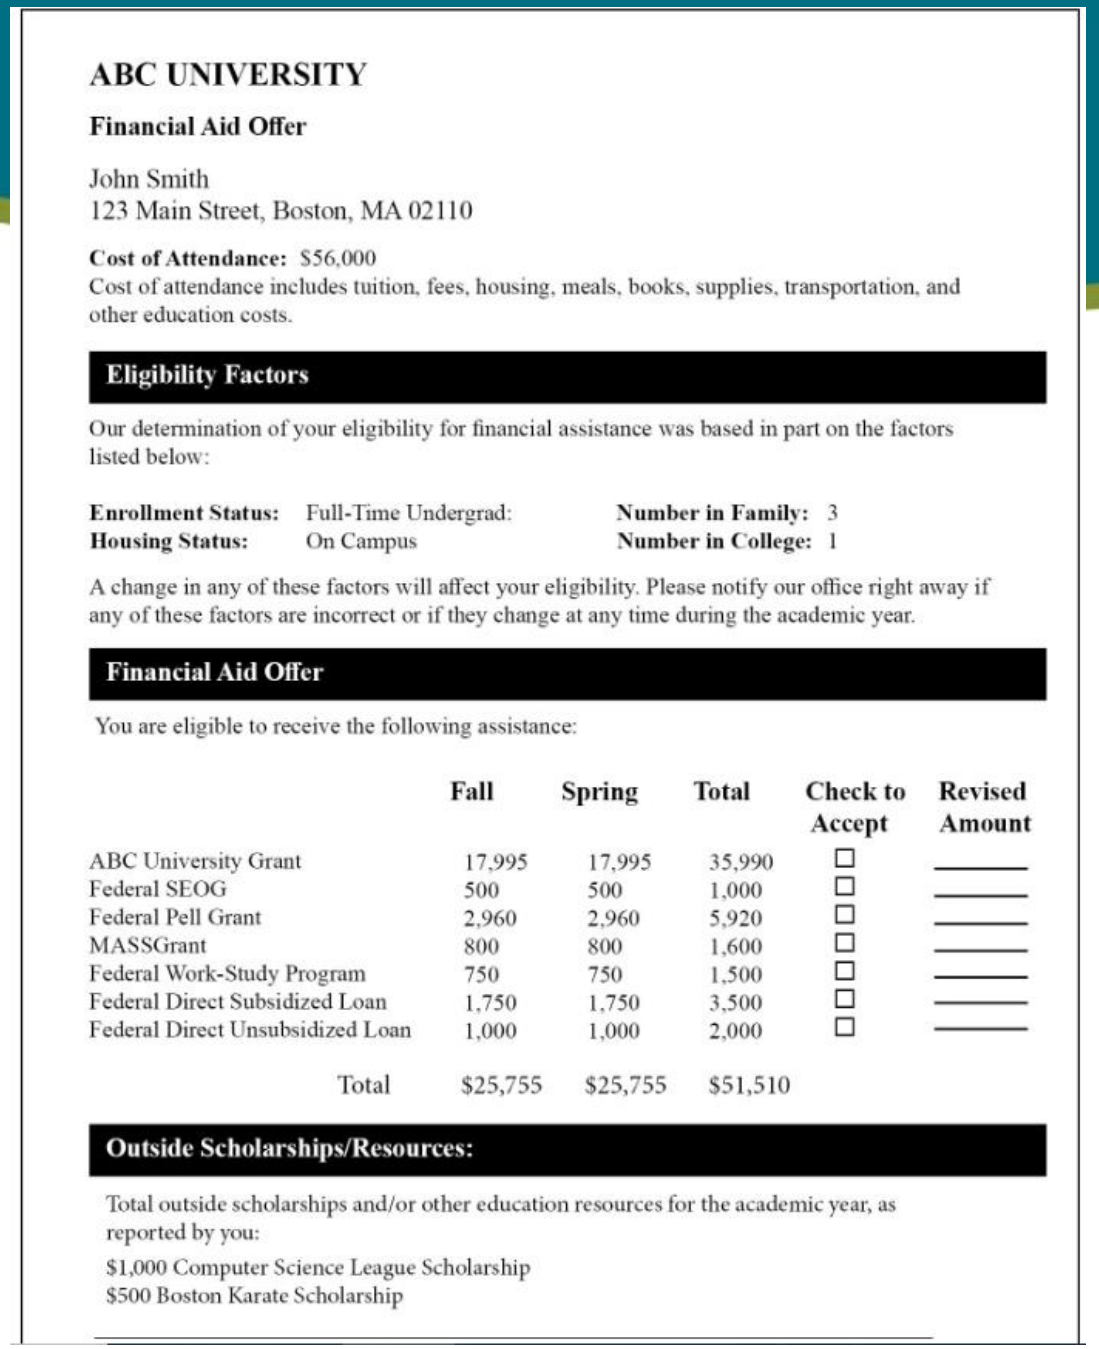

After completing & submitting financial aid forms:

- Students will get letters from 4-year colleges or universities to which they have applied informing them if the student has been:
  - Accepted
  - Not accepted at that school, or
  - Placed on a wait list
- The college/university can access the WASFA and FAFSA forms to know how much government aid the student received or will be receiving
- The college/university will send a financial aid offer after the student has been accepted.
  - The financial offer provides information as to how much money they will receive in government aid, school aid/grant, other scholarship offers if applicable, work study offer, loans, etc.
