7	1:25-2:05
8	2:10-2:50

AFHSD

Alternating Block Schedule FAQ

How many classes will students take?
Students will take eight classes total. Odd and Even days will alternate which four classes students attend. On a Wednesday schedule, students will have all eight classes.

What kinds of learning experiences can students expect in a longer class period?
During an 85-minute class, students may engage in instruction, collaboration, practice, labs, projects, discussion, and application.

What kinds of opportunities will students have with the block schedule?
Moving from six to eight periods creates additional space for electives, advanced courses, career pathways, academic support, and other opportunities aligned with students' interests and goals.

Will seniors still have opportunities for an early or late start?
Early and late start options will continue to be available when students' schedules and graduation requirements allow.

Will students in West-MEC programs still be able to have release time?
Students enrolled in West-MEC programs will continue to have release time in their schedules to attend their programs.

How will this schedule affect internships and work-based learning opportunities?
Students will continue to participate in internships and other work-based learning experiences, including release periods when appropriate.

Will students have to take more core academic courses with eight classes?
Students will not have additional academic core requirements. There will be more opportunities to explore electives, pursue their interests and passions, participate in career pathways, and build a schedule that supports their individual goals.

Will late work and reassessment opportunities still be available?
Students will continue to have established late-work windows and reassessment opportunities as part of the district's academic practices.
