November 6th, 2026

SHMS Friday Flyer

We Believe & You Belong

Today our SHMS students attended a leadership conference to develop their leadership skills, build confidence, and gain valuable insights to better serve their school and peers.

Principal Message

Grizzly Families,

Next week is one of the best events of the year: our K-12 students and staff gather in the high school gym for our Veterans Day Assembly. Each year I am incredibly impressed with how our students behave and show their respects to those who served our country. If you do not want your child to walk up to NHS for this assembly supervised by staff, please contact our office.

Also, on Friday of next week, musicians from the Spokane Symphony are performing for an all-school assembly in the afternoon followed by tutoring sessions with band students.

Finally, our Athletic Director will be sending families of athletes a letter with additional information about eligibility and grade checks.

As always, reach out to our office with any questions, concerns, or feedback. Thank you!

-Tony Moser, (509) 447-2426 mosertony@newportgriz.com

Events

Counselors Corner

The SHMS Student Support Website is updated monthly with resources and fun activities for students and families. Check out the *NEW* Veteran's Day activities and videos.

Athletic Avenue

Wrestling Schedule & Volleyball Schedules Athletic Director: Brandon McDaniel

Finally, our Athletic Director will be sending families of athletes a letter with additional information about eligibility and grade checks.

🩺 From the Nurses' Office

Wondering if your child is well enough for school? Here are a few quick reminders:
Feeling a little under the weather but able to participate? They can usually come to school.
Fever of 100.4°F or higher with symptoms? Keep them home.
Vomiting in the past 24 hours or increased diarrhea? Stay home and rest.

Too sick to participate in the school day? A sick day is best! Need more guidance? Check out Washington's "When Is Your Child Too Sick for School?" handout.

📸 Grizzly Photos of the Week 📸

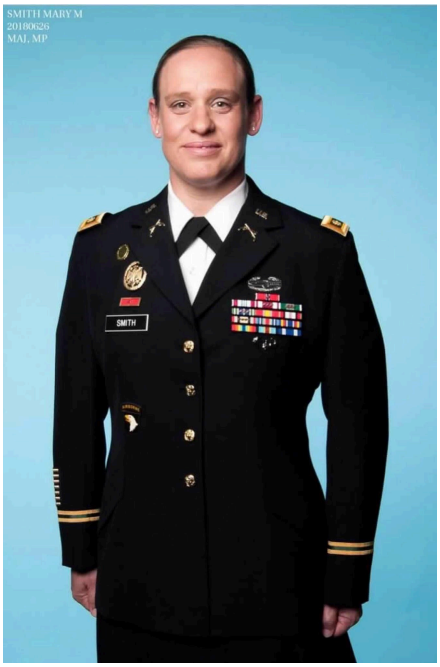

Thank you to our very own SHMS Veterans for your service to our county and for your continued service to our minds and hearts in the classroom. We appreciate you!

⭐SchooLinks Student Spotlight⭐

SchooLinks is helping our 7th and 8th grade students plan for life after high school! Through interactive surveys, students are discovering their unique strengths, personality types, and matching career paths. Check out this week's favorite careers.

Dawkin S

A Career I Am Exploring:

Welding

High Job Growth- 2.0% from 2023-33
Higher Salary- $48,940 median salary
Current Employment- 454,500 jobs
Minimum Education- High school diploma or equivalent

Welders, cutters, solderers, and brazers use hand-held or remotely controlled equipment to join or cut metal parts. They also fill holes, indentations, or seams of metal products.

What do they do?

- Study blueprints, sketches, or specifications
- Calculate the dimensions of parts to be welded
- Inspect structures or materials to be welded
- Ignite torches or start power supplies
- Monitor the welding process to avoid overheating
- Maintain equipment and machinery

Killian C

A Career I Am Exploring:

Video Game Design

High Job Growth- 8.0% from 2023-33
Salary- $98,540 median salary
Current Employment- 128,600 jobs
Minimum Education- Bachelor's degree

What do they do?

- Design core features of video games.
- Specify innovative game and role-play mechanics, story lines, and character biographies.
- Create and maintain design documentation.
- Guide and collaborate with production staff to produce games as designed.

If you play video games, you've probably thought about turning it into a career, but know there are many dimensions to this occupation. Video game designers start with a list of concepts, narrowed down by a large team of developers to the best one. Teamwork is essential in this field, as designers collaborate on role-play mechanics, story lines, character development, graphics, and everything in between. They are likely to need expertise in programming languages and game design computer software as well. They usually work in office settings, with typical office hours expanding to overtime as project deadlines approach. A single project usually lasts about two years, and 'crunch' time can last months - but through it all, these designers still report high levels of job satisfaction.

Mckenzie D

A Career I Am Exploring:

Veterinary Assistants and Lab Animal Caretakers

High Job Growth- 19.0% from 2023-33
Salary- $36,440 median salary
Current Employment- 118,200 jobs
Minimum Education- High school diploma or equivalent

Veterinary assistants and laboratory animal caretakers look after animals in laboratories, animal hospitals, and clinics. They care for the animals by performing routine tasks under the supervision of scientists, veterinarians, and veterinary technologists and technicians.

What do they do?

- Feed, bathe, and exercise animals
- Clean and disinfect cages, kennels, and examination and operating rooms
- Restrain animals during examination and laboratory procedures
- Maintain and sterilize surgical instruments and equipment
- Monitor and care for animals after surgery
- Help provide emergency first aid to sick and injured animals
- Give medication or immunizations that veterinarians prescribe
- Assist in the collection of blood, urine, and tissue samples

James K

A Career I Am Exploring:

Hunting & Fishing

High Job Growth- -1.0% from 2023-33
Salary- $29,280 median salary
Current Employment- 25,500 jobs
Minimum Education- No formal educational credential

Fishing and hunting workers catch and trap various types of animal life. The fish and wild animals they catch are for human food, animal feed, bait, and other uses.

What do they do?

- Locate fish with the use of fish-finding equipment
- Steer vessels and operate navigational instruments
- Maintain engines, fishing gear, and other onboard equipment by making minor repairs
- Sort, pack, and store the catch in holds with ice and other freezing methods
- Measure fish to ensure that they are of legal size
- Return undesirable or illegal catches to the water
- Guide nets, traps, and lines onto vessels by hand or with hoisting equipment
- Signal other workers to move, hoist, and position loads of the catch

Emmalee C

A Career I Am Exploring:

Physician Assistant

High Job Growth- -29.0% from 2023-33
Salary- $130,020 median salary
Current Employment- 153,400 jobs
Minimum Education- Master's degree

Physician assistants, also known as PAs, practice medicine on teams with physicians, surgeons, and other healthcare workers. They don't go through all of the medical training doctors do, they need to have a master's degree.

What do they do?

- Take or review patients medical histories
- Examine patients
- Order and interpret diagnostic tests, such as x rays or blood tests
- Diagnose a patient's injury or illness
- Give treatment, such as setting broken bones and immunizing patients
- Educate and counsel patients and their families for example, answering questions about how to care for a child with asthma
- Prescribe medicine
- Assess and record a patient's progress
- Research the latest treatments to ensure the quality of patient care
- Conduct or participate in outreach programs, talking to groups about managing diseases and promoting wellness

Hannah T

A Career I Am Exploring:

Physician Assistant

High Job Growth- -13.0% from 2023-33
Salary- $57,930 median salary
Current Employment- 34,300 jobs
Minimum Education- Master's degree

Athletic trainers help athletes of all types perform their best. They work to diagnose, prevent, and treat muscle and bone injuries.

What do they do?

- Apply protective or injury-preventive devices, such as tape, bandages, and braces
- Recognize and evaluate injuries
- Provide first aid or emergency care
- Develop and carry out rehabilitation programs for injured athletes
- Plan and implement comprehensive programs to prevent injury and illness among athletes
- Perform administrative tasks, such as keeping records and writing reports on injuries and treatment programs
