3 FINE & PERFORMING ARTS

Music education teaches skills and promotes values of self-discipline, dedication, teamwork, self-confidence and practice. In addition to art, music and theater, our students can take advantage of classroom music and, beginning in grade six, students have the chance to discover new talents in orchestra, band or choir.

4 WIDE RANGE OF ELECTIVES

In middle school, our students have a multitude of electives to choose from including Robotics, Project Lead the Way, Ceramics, Drawing & Painting, Global Communication and Life Skills.

5 ATHLETICS & ACTIVITIES

With 33 state-sponsored athletics for grades 7-12 including lacrosse, gymnastics and Nordic ski, and over 45 clubs and groups, such as robotics, Knowledge Bowl, Future Problem Solvers and Rotary Interact, our students have a wide variety of ways to connect and experience teamwork.

6 INNOVATION & TECHNOLOGY

With a focus on bringing computational thinking into the classroom, elementary students have opportunities to work with robots and coding as well as participate in "unplugged" lessons which introduce computer science concepts through activities.

7 COLLEGE & CAREER READINESS

Once in high school, CTE offerings provide outstanding technical workplace occupational skills in areas such as automotive, big build projects and the culinary arts. We are creating pathways of opportunity for students to experience success post-graduation through 3 Career and College Academies.
