ATHLETICS

Washington Academy welcomes the opportunity for eligible homeschool students to participate in our athletic program. We recognize the important role athletics play in a student's overall educational experience and believe that all student-athletes should have opportunities to develop teamwork, leadership, sportsmanship, and school pride.

Homeschool students in our surrounding communities are eligible to participate in Washington Academy athletics, provided they meet applicable Maine Principals' Association (MPA) regulations and Washington Academy athletic policies.

MISSION STATEMENT

Washington Academy ignites passion for learning through dynamic programs that emphasize intellectual curiosity, innovation, and community engagement.

CORE VALUES

The Individual Student
We know, respect, and support each student.

Dedicated and Diverse Faculty
We bring teachers and students together in relationships that challenge, inspire, and nurture each student's intellect, confidence, and determination.

Standards of Excellence
We challenge students to strive for their personal best in every pursuit, take risks and persevere.

Progressive Culture
We promote curiosity, open-minded exploration, and out-of-the-box critical thinking while building on tradition and pride.

The Whole Person
We believe that the complete development of each student requires intensive experiences in academics, athletics, arts, community life, and the natural world.

The Whole World
We prepare students for successful and responsible global citizenship.

HOW CAN WASHINGTON ACADEMY Since 1792 SUPPORT YOUR HOMESCHOOL PROGRAM?

FINE ARTS

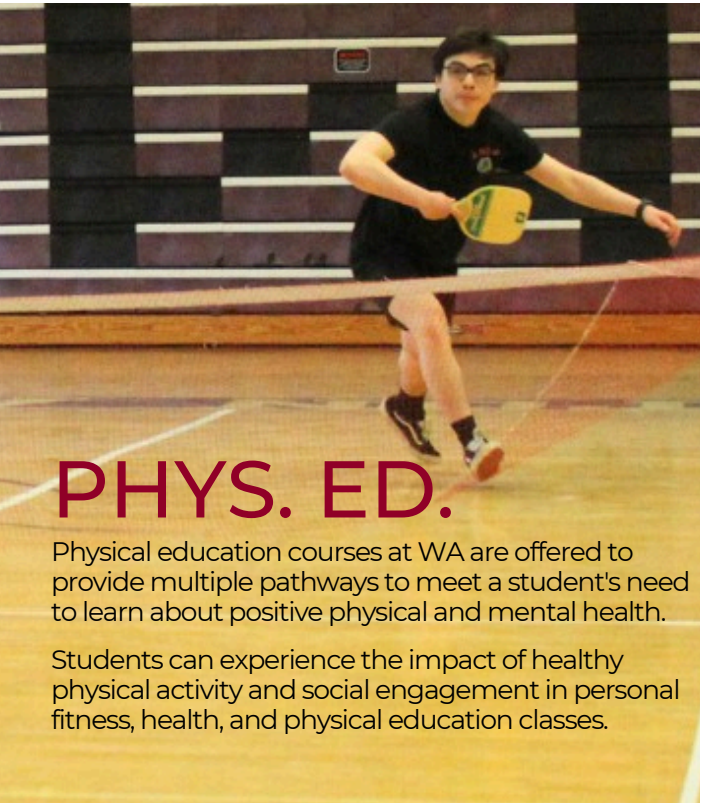

Washington Academy offers a variety of fine arts disciplines, including music, media, and visual arts. These classes provide opportunities to gain exposure and understanding of diverse artistic experiences gaining perspective on how the arts can enhance the world.

Music classes include guitar, concert band, chorus, and lab band. Lab band is an introductory class where students can learn to play multiple band instruments in a low-stress environment.

Visual Arts offer three levels of studio art and computer-aided design (CAD) classes.

In addition to visual arts and music classes, WA invites students to join the long-standing, after-school, drama club, The WA Players.

PHYS. ED.

Physical education courses at WA are offered to provide multiple pathways to meet a student's need to learn about positive physical and mental health.

Students can experience the impact of healthy physical activity and social engagement in personal fitness, health, and physical education classes.

ACADEMICS

Many unique signature program classes are available to homeschoolers at Washington Academy, including Passamaquoddy, Spanish, engineering, Holocaust studies, marine biology, coastal ecology, modern-day apprenticeship, outdoor leadership, applied media, and more.

Honors-level classes are available, including physics and public speaking, plus College Board AP® Program courses in literature, art statistics, calculus, and precalculus.

WA recognizes the importance of experiential learning to complement content curricula to enhance and maximize the educational experience.
