[Mackenzie] I love Shreveport. I do think that it's different from a lot of, you know, big cities that some of the training programs, you can find some other training programs. So you you do have to know that it's like a medium sized city. And there's not huge nightlife. But for what I needed for residency, it was absolutely perfect. So I have been able to have a house and, have like close friends that are easy to get to, a quick distance to the hospital.	Resident with long blonde hair pulled over her left shoulder. [Kevin] The people are a lot nicer here than in Dallas. Traffic's a lot nicer. And, I don't know, I feel actually more at home in Shreveport than I do in Dallas, to be honest with you. [Joel] As a father of three, I think it's a great place for a young family. I think there's a lot of great things to do around here, a lot of good schools as well, since my son just started in kindergarten. He's really enjoyed that so far. But we have, you know, the aquarium, the Discovery Science Center. There's a lot of, different playgrounds in place that I love taking my kids on the weekends and after work. [Mark] I'm not from this area. I'm actually from Dallas, Texas. I finished my training in Shreveport, and I was planning on going back to Texas. But I have four kiddos of my own. We really built a community here. I love the people here, and I really love the city. Some people like to say, oh, Shreveport is bad. All these other things. I I've had so much fun here. I love my community here. I love the people here. I love the schools here. It really is a diamond in the rough. And so I'm probably gonna spend the rest of my life here, if I'm being honest. I really, really enjoy it. I really like it. And, if anyone decides to become a resident here, hit me up. I'm more than happy to talk to you about what's going on and show you all the cool things to do here.
