HELIX CHARTER HIGH SCHOOL

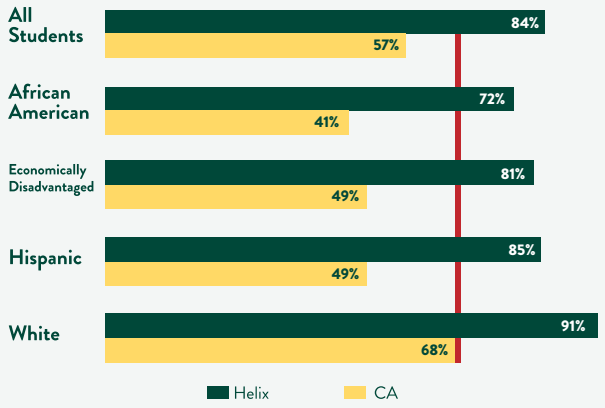

Helix defies the odds by closing the achievement gap for Black, Brown, and economically disadvantaged students.

Comprehensive high schools throughout the nation have long underserved students. Helix is answering the call to close the achievement gap. The graph indicates that all Helix subgroups outperformed White students in California in 2025.

As a college prep school, our goal is to have ALL students experience success in college level curriculum and instruction so they are confident they can succeed in college if they choose to attend. We have developed a robust, blended Advanced Placement (AP) and Dual Enrollment (DE) Community College Program to support this effort. Last year we offered 73 DE courses with a pass rate of 99% and 10 AP courses with a test pass rate of 86%. The graph below shows the increased participation in this program over the past decades from a small, select group, to the inclusion of the majority of our students.
