Ideas/Goals for this school year:

- How schools interface with outside agencies. Have someone from CPS teams, DCF, mental health, etc. as speakers. What's out there? What ages do students qualify for help, etc. Scott Meyer will speak with Jeremy Scannell and Carrie Bullard to arrange.
- Cyber security, including AI – review Cole's presentation from last year, invite Cole to speak.
- Student committees – Ask them to present on the School Climate Survey from the fall. How are programs with other schools (5^{th} and 6^{th} graders) going?
- The effects of Act 170 on our students, families, and communities.

Adjourned @ 5:51 pm.
