Lady Wolves

Our Lady Wolves Volleyball Team had a successful season. We loved cheering them on! We interviewed Coach Mann to find out more about their success.

1. **As a coach, what makes a player the most coachable to you?**

A player is most coachable when they come to practice every day with a great attitude, consistent work ethic, and a drive to want to get better. By having a consistent work ethic, we can truly see where our players excel and the areas in which we need improvement. From there, we can take a player's drive and want to succeed to help them become a better player!

2. **Are you pleased with how this season has been going? Why or Why not?**

We are very pleased with both of our JV and Varsity teams. We have seen a big improvement with both teams from last year, willingness to get better, and opportunities where players are growing in JV to earn playing time in a Varsity game. This is a special group of girls, and we are excited to see where the rest of the season leads us.

3. **How do you feel about your new 7th grade players? Are they what you expected?**

Our 7th graders came in and were very eager to play the sport and learn the game! We are excited to see them continue to grow and develop over the next two years in preparation for high school volleyball!

4. **What will you miss about this group of seniors?**

I will miss the excitement and dedication that these seniors bring to our team. They always gave me their all through practices and games no matter what the situation was. They have been a great group!

5. **What advice do you have for the 6th grade girls who want to try out?**

I encourage you to get involved SOON! Volleyball is a huge growing sport across our state. We are a competitive program that wants to bring a state championship to Puckett. Be ready to work hard, learn, and always look for ways to grow and improve!
