Emily Bramanti

Class of 2018 - Basketball & Softball

Emily Bramanti was a standout basketball and softball player at Westford Academy whose talent, focus, effort and desire to win pushed both herself and her teammates to great successes.

In softball, Bramanti was a four-year starter on teams that won back-to back Dual County League titles. Her diving catch in the second inning and game winning hit in the seventh inning against Chelmsford helped take the team to the 2015 Division 1 North Sectional final.

Bramanti did her greatest work on the basketball court, where she was a 3-time DCL All-Star, a 2-time DCL Champion, and led teams to a 2017 D1 Central Sectional Championship and a 2018 D1 Central Sectional Finalist. A four-year starter as a combo point and shooting guard, her teams continually challenged the elite teams in the state. Her teams won five holiday tournaments, highlighted by winning the prestigious Comcast Tournament in 2018, where the team beat both eventual state champion Braintree and a 19-0 Belmont High team, resulting in Bramanti being named the tournament's Most Valuable Player.

Bramanti excelled further at Stonehill College; as a two-year captain and a three-year starter, she scored over 1,000 points. In 2019-20, she and her team won the NE-10 and made the NCAA tournament. In Stonehill's inaugural NCAA Division 1 season, her outstanding performance earned her Northeast Conference All-Conference First Team honors.

While It is easy to judge the incredible success of Emily Bramanti's career by the accolades and accomplishments of her four years at Westford Academy, her greatness comes from two details not found in game statistics. First, she is a relentless competitor. Her will to win and desire to push herself and her teammates to triumph was unmatched. After her sophomore year, dissatisfied with her own performance as a basketball player, she decided to improve herself. She entered her junior season faster, stronger and better in every way, literally turning herself from a slightly above-average high school basketball player into one of the best guards in the state. Second, she loves and knows basketball more than any player or coach that has been through Westford.

From her early years as a precocious point guard to her current position at Stonehill as Women's Basketball Assistant Coach, Emily has gathered skills and knowledge of the game beyond measure. We will have to update her list of accomplishments over the next decade as she continues her coaching career.
