SUPERINTENDENT'S REPORT:

a. **Good News and Progress in Our Schools**

The Butler School District opened our school year with remarkable purpose, stability, and momentum. Our progress is evident across the entire district - a direct result of years of strategic, long-term planning that seamlessly integrates instruction, student support, facilities, technology, compliance, and community engagement. This coherence breathes life into our ***Portrait of a Graduate***, transforming high-level goals into meaningful daily experiences for every Butler student. Through clear district leadership, we actively celebrate our achievements while systematically targeting areas for continued growth, ensuring both pride and accountability drive our mission: Small District. Big Impact.

We opened our doors across the district for three highly successful Back to School Nights. Aaron Decker School set a warm tone for elementary families, followed by strong turnout and high staff engagement at Richard Butler School and Butler High School.

Demonstrating compassionate leadership in action, the RBS Student Council is raising funds for disabled American veterans through its Field of Flags initiative. The BHS Activism Alliance is collecting clothing, supplies, and donations for veterans as part of our local 250th celebration. Additionally, the National Junior Honor Society will host a bake sale on October 19 to support Tri-Boro Animal Welfare.

Our instructional leadership model focuses on high-value coaching, classroom evidence, and

measurable student progress. Our Leadership Team will utilize a standardized "Glow, Grow, Go" feedback structure during classroom walkthroughs to elevate student thinking and foster independence. Together, our team defined academic rigor not by volume of work, but by the depth of critical thinking requested from students. To realize this vision, we established a clear district benchmark: by June 2027, 80% of leadership learning walks will reflect students independently explaining, justifying, and solving problems.

We recently closed our September benchmark window across all schools, using mCLASS for K–5 foundational literacy, iReady for grades 3–8 mathematics, and district-created benchmarks in secondary courses. This establishes a clear baseline to drive our Multi-Tiered System of Supports (MTSS) and classroom groupings.

State NJSLA results were released to districts last week and will be accessible to families via the Family Portal on or about September 28. Because the state transitioned to a new adaptive assessment with revised cut scores, these results represent a fresh baseline snapshot that we will analyze alongside our internal diagnostic data. A full presentation will be brought to the Board at November's meeting.

Early elementary literacy in grades K–4 remains strictly aligned to a constant standard: ensuring every student leaves Aaron Decker School reading proficiently at or above grade level. Tomorrow, our district leadership team convenes for a planning session leveraging key departmental successes in STEAM, such as our 100% pass rate on the 8th-grade Algebra 1 state assessment and a 71%+ qualifying score rate in AP Biology. By building on these achievements, we will outline targeted transition pathways with clear ownership, timelines, and data-driven resource allocation to sustain long-term growth across all areas of STEAM education.

Our October 12th Professional Learning Day has been structured around role-specific, high-impact growth: Targeted Workshops include:

- Elementary literacy coaching cycles with nationally recognized expert Gravity Goldberg;
- math priority units;
- text complexity and disciplinary literacy (grades 5–12);
- In-Class Resource (ICR) lesson design;
- dyslexia and comprehensive literacy training;
- New Educator Cohort mentoring; and
- CPI de-escalation training.

Rather than treating AI as a standalone trend, we have developed two internal, self-paced asynchronous courses framing AI through the SAMR model and guiding teachers to construct formative assessments directly from diagnostic data. Every teacher will redesign a lesson and submit student work evidence by October 30. Science teams will also launch AI-supported labs focused on source verification and bias recognition.

We have restructured student support services to maximize visibility, accountability, and student access across all levels. Counselors have the goal of dedicating at least 80% of their time to direct and indirect student support, with all outreach tracked in RealTime. The Lead Counselor framework

connects administrative goals directly with our expanding Butler Futures program. Additionally, specialized mental health cohorts will launch during Bulldog Block to provide enhanced Tier 2 and Tier 3 interventions in partnership with Erin Tashian. Progress within counseling will be formally reported to the Board in January and June.

Through disciplined administrative oversight, Dr. Papa and her team have fully verified every current IEP within our new RealTime system - a critical operational milestone that safeguards student services and legal compliance. Parents are also encouraged to participate in our Special Education Parent Advisory Group (SEPAG). Students in our RISE program have partnered in operating the Bulldog Bites school store, where they will be managing daily pre-orders and building deliveries as practical job training for life after graduation.

Students and staff returned to school this year to upgraded environments reflecting strategic capital investments: High School Upgrades:

- Completion of the BHS elevator, window replacements, new Guidance Suite, broadcasting studio, and closeout of the BHS addition punch-list.
- RBS roof replacement and sanitation upgrades;
- refreshed interior painting and ceiling tiles; and
- updated instructional technology across Aaron Decker School.

Technology management has been reorganized with defined assignments for Apple/Jamf management, security cameras, access control, network infrastructure, printing, and Chromebook insurance/repairs.

We continue to investigate flexible, high-impact opportunities that would leverage our strengths as a small district that can provide big-district options:

- K–12 Music Pathway: Development is underway on a progressive music pathway designed to expand elementary access, strengthen band and chorus transitions, introduce small ensembles (jazz/percussion), and integrate musical performance with our digital broadcasting platform.
- Multilingual Community Night: On September 28, we will host our annual Multilingual Community Night to welcome multilingual families, deepen district connections, and advance our core traits of collaborative communication.

The defining story of our opening month is unity: every operational area, instruction, intervention, counseling, compliance, technology, facilities, and communication, is moving together as one system focused on excellence. I extend my sincere gratitude to our dedicated teachers, staff, and Board members - and especially to my leadership team who continue to do more for our students.. Over the past nine years, we have established an extraordinarily strong foundation that ensures that every Butler student realizes how special our District is.

4. Career Education, Counseling, and Graduation

- Policy & Regulation 2411 – Career Education and Guidance Counseling (Revised): Adopts 2019 ASCA National Standards; mandates co-delivery of information literacy instruction through certified school library media specialists under N.J.S.A. 18A:7F-4.4; and requires certified district staff supervision for work-based learning and external internships.
