PROJECTS

- Multipurpose turf practice field at Eisenhower and Henry Ford II high schools to be complete in fall of 2027.
- Renovation of Runkel Field, including new visitor and home bleachers, an improved fan experience through concourse and entrance improvements and replacement of paving with adjacent practice field. Completion in fall of 2028.
- Utica High School softball and baseball turf stadiums. Work begins after spring 2027 season.

Utica Community Schools is continuing to move forward with the commitments made to UCS voters as part of the 2023 Bond Issue.

Over the next few months, work will begin on a series of improvements to athletic facilities serving high school teams.

The transformational improvements will include multipurpose turf athletic fields at Eisenhower and Henry Ford II high schools; a renovation project at Runkel Field similar to the recent upgrades at Swinehart Stadium; and new softball and baseball turf fields at Utica High School.

Multipurpose fields provide flexibility for a variety of athletic activities and can accommodate additional games, practices, tournaments, school community events and other school-sponsored activities. The multi-purpose turf fields can be used by teams and bands that use the stadium. It will be striped for soccer, football, and lacrosse.
