Horizons Elementary

NEWSLETTER

From the Principal's Desk

Dear Families,

We have had so many wonderful things happening at school, and I want to take a moment to share a few exciting updates!

First, a huge thank-you to everyone who joined us for Movie Night! It was a fantastic evening filled with fun, laughter, and time spent together as a school community. We loved seeing so many families come out and enjoy the event. Thank you to everyone who helped make it such a success!

We are also looking forward to our upcoming concert featuring our 3rd, 4th, and 5th grade students, along with our Flames Choir! Our students have been working hard, and we can't wait for them to share their talents with you. We hope you will join us for this special performance!

Mr. Ohlson, Principal

Reminders

With the cold weather approaching, please send your child to school with warm outside attire. Our school no longer supplies winter coats, snow boats, and snow pants.

Upcoming Events

- *Nov 19 - 3, 4, 5, & Flames Concert*
- *Nov 25-27 - No School*
- *Nov 30 - Culver's Fundraiser Due*

HFN

Horizons Family Network is a group of Horizons families and staff that come together for the common goal to support students, staff, teachers and school needs.

HAND WASHING CAN SAVE LIVES!

Hand washing is one of the most important steps we can take to avoid getting sick and spreading germs to others. Many diseases and illnesses are spread by not washing hands with soap and water. It is best to wash your hands with soap and clean running water for 20 seconds. Although soap and water are more effective at removing germs, alcohol-based hand rubs significantly reduce the number of germs on skin and are fast acting.

Per the CDC, handwashing:

- Reduces the number of people who get sick with diarrhea by 23-40%
- Reduces diarrheal illness in people with weakened immune systems by 58%
- Reduces respiratory illnesses, like colds, in the general population by 16-21%
- Reduces absenteeism due to gastrointestinal illness in schoolchildren by 29-57%

When washing hands with soap and water:

- Wet your hands with clean running water and apply soap. Use warm water if it is available.
- Rub hands together to make a lather and scrub all surfaces, making sure to clean in between fingers, thumbs, the back of your hand and your wrists
- Continue rubbing hands for 20 seconds. Need a timer? Imagine singing "Happy Birthday" twice to a friend!
- Rinse hands well under running water
- Dry your hands using a paper towel or air dryer. If possible, use your paper towel to turn off the faucet

Remember: If soap and water are not available, use alcohol-based hand sanitizer to clean hands.

When using an alcohol-based hand sanitizer:

- Apply product to the palm of one hand
- Rub hands together
- Rub the product over all surfaces of hands and fingers until hands are dry.

When should you wash your hands?

- Before preparing or eating food
- After going to the bathroom
- After changing diapers or cleaning up a child who has gone to the bathroom
- Before and after tending to someone who is sick
- After blowing your nose, coughing, or sneezing
- After handling an animal or animal waste
- After handling garbage
- Anytime your hands are visibly dirty
- Before and after treating a cut or wound
