SUBJECT: **OCTOBER BENCHMARK ENROLLMENT REPORT SY2026-27 (FY2027)**

ENROLLMENT SUMMARY

The October benchmark student count was conducted on Friday, October 9, 2026. Total pre-kindergarten through 12th grade enrollment for District-operated schools was 155,614 students, a decrease of 6,535 students from SY2025-26 October benchmark enrollment count. Total kindergarten through 12th grade enrollment was 152,083 students, a decrease of 6,544 students as compared to SY2025-26. The elementary school level experienced the largest annual decrease in enrollment, with 3,473 fewer students as compared to SY2025-26. Sixth through eighth grade enrollment at the eight K-8 schools increased by about eleven percent over SY2025-26, bringing their total middle school enrollment to 1,568 students. For all District-operated schools, including Alternative Education, ESE and Virtual schools, total pre-kindergarten through 12th grade enrollment was 156,857 students, a decrease of 6,599 students from SY2025-26. Total kindergarten through 12th grade enrollment was 153,005 students. The School District of Palm Beach County believes the decline in enrollment is part of a regional trend affecting all large urban school districts in Florida. We attribute this trend to factors such as wider demographic shifts in our region, the expansion of Family Empowerment Scholarships, and the rising cost of living in Palm Beach County. Table 1 summarizes the October benchmark enrollment data:

Charter Schools

K-12 charter school enrollment comprises approximately 12% of total District enrollment. Charter school enrollment decreased by 757 K-12 students since SY2025-26, or a 3.5% decrease as compared to SY2025-26. This marks the fourth consecutive year in which charter school enrollment experienced a decline. From SY2025-26 to SY2026-27, charter school enrollment decreased at all levels. For this school year, one charter school expanded to include high school, one charter school closed, and two schools merged to become a school with grades 6-12. Table 3 tabulates total charter school enrollment by level – elementary, middle and high.

Actual Versus Projected Enrollment

In District-operated schools, actual K-12 enrollment was 3,871 students or 2.5% lower than projected. For all District-operated schools, including Alternative Education, ESE and Virtual schools, enrollment was 3,915 students or about 2.5% lower than projected. Actual virtual school enrollment was 256 students, which was 47 students higher than projected. K-12 enrollment in charter schools was 434 students or about 2.1% lower than projected.

Due to the timeline of charter schools finding a location and building, the District does not know specifically, in some instances, which District schools will lose students to new charters until just prior to the opening of school. Charter schools are not required to provide District staff with a location as late as a month before opening. In addition, some charter schools that are scheduled to open may fail to do so. Table 4 summarizes actual versus projected enrollment, by category.
