MYP Science / DP Chemistry Teacher

SECONDARY SCHOOL / TEACHING POSITION

INQUIRE · INSPIRE · IMPACT

Dear prospective colleague, Thank you for your interest in joining Nagoya International School. We want classrooms where students do more than answer questions: they question the answers, make connections and discover what matters. Our values of Safety, Growth, Belonging and Responsibility shape how we teach, learn and care for one another. Academic ambition and a sense of belonging go hand in hand; every child deserves to be known, challenged and supported.

We are seeking an experienced Science teacher with the depth of Chemistry knowledge to teach IB Diploma Programme Chemistry at Higher Level and the versatility to teach middle-school (MYP) Science. You will help students investigate scientific questions, use evidence carefully and make meaningful connections through experimental and inquiry-based learning. We value colleagues who bring curiosity to the science of learning and continually refine the art of teaching. For the right candidate, this position may also include the opportunity to serve as Head of Department.

Essential requirements

- A BA degree in Chemistry or a closely related field, together with valid teaching certification in Science and the subject knowledge to teach DP Chemistry at Higher Level.
- At least four years' full-time experience teaching Science (including chemistry) in an international or national school offering programmes similar to NIS.
- Experience teaching upper-high-school Chemistry at the highest level (for example IB DP, A level or AP), together with experience teaching middle-school Science (for example MYP or Key Stage 3).
- A commitment to collaborating with colleagues to make learning connected and meaningful.
- A commitment to NIS's values of Safety, Growth, Belonging and Responsibility, creating an environment where all learners are known, challenged and supported.
- A passion for holistic education, relational teaching and restorative approaches, with as much commitment to students' wellbeing as to their academic learning.

Desirable attributes and experiences

- Experience living and/or working in an international context, preferably within an international school.
- Experience teaching Science/Chemistry within both the IB MYP and DP.
- A master's degree or higher in Chemistry, Science, Education or a closely related field.
- Experience as an IB workshop leader, examiner or in a similar MYP and/or DP role.

How to apply

Teaching candidates should ordinarily apply through Search Associates. If you are a local candidate and/or you are only looking at schools in and near to Nagoya, you may also apply directly to jobs@nis.ac.jp with a CV and cover letter

explaining your circumstances. For current vacancy and application details, and more about working at NIS, visit **www.nis.ac.jp/careers/vacancies**
