MYP & DP Mathematics Teacher

SECONDARY SCHOOL / TEACHING POSITION

INQUIRE · INSPIRE · IMPACT

Dear prospective colleague, Thank you for your interest in joining Nagoya International School. We want classrooms where students do more than answer questions: they question the answers, make connections and discover what matters. Our values of Safety, Growth, Belonging and Responsibility shape how we teach, learn and care for one another. Academic ambition and a sense of belonging go hand in hand; every child deserves to be known, challenged and supported.

We are looking for an experienced Mathematics teacher who shares these values and brings both expertise and curiosity to our Secondary School. Teaching across the MYP and DP, including advanced mathematics, you will join colleagues who think together, who are passionate about the science of learning and who keep pushing what is possible through the art of teaching. We want teachers who question and refine their own practice, care as deeply about students' wellbeing as academic growth, and see NIS as a place to contribute, keep learning and help shape the next chapter of our school.

Essential requirements

- A BA degree in Mathematics or a related field, together with valid teaching certification in Mathematics.
- At least four years' full-time experience teaching Mathematics in an international or national school offering programmes similar to NIS, including at the most advanced high-school level (DP A&I / A&A).
- A commitment to collaborating with colleagues to make learning connected and meaningful.
- A commitment to NIS's values of Safety, Growth, Belonging and Responsibility, creating an environment where all learners are known, challenged and supported.
- A passion for holistic education, relational teaching and restorative approaches, with as much commitment to students' wellbeing as to their academic learning.

Desirable attributes and experiences

- Experience living and/or working in an international context, preferably within an international school.
- Experience teaching within both the IB Middle Years Programme (MYP) and Diploma Programme (DP).
- A master's degree or higher in Mathematics, Education or a closely related field.
- Experience as an IB workshop leader, examiner or in a similar role within the MYP and/or DP.

How to apply

Teaching candidates should ordinarily apply through Search Associates. If you are a local candidate and/or you are only looking at schools in and near to Nagoya, you may also apply directly to jobs@nis.ac.jp with a CV and cover letter explaining your circumstances. For current vacancy and application details, and more about working at NIS, visit **www.nis.ac.jp/careers/vacancies**
